Description	<p>Dear WUTC,</p> <p>I would like you to deny the 62% average rate increase has been requested by the Rosario Utilities, L.L.C. I am a property owner in the Rosario area and am shocked that the percentage increase for households that use 1 – 3000 gallons is 136%! The other percentage increases for different gallon consumptions are also unacceptable. If a commercial business raised rates at the proposed rates, it would soon be out of business.</p> <p>Rosario Utilities is the ONLY provider of water in the Rosario area which means it has a stranglehold on all of us who own private property and live or vacation in the area. As you establish a fair rate, please consider that Rosario is for sale with a Master Plan for major development of the area. This proposed revenue increase will certainly make the resort sell more easily but it will be on the financial backs of current homeowners in the area. We property owners request that you consider and set what is a fair rate for us as well as for Rosario, which has a monopoly on the water delivery system in the area and can set whatever it wants.</p> <p>Thank you.</p> <p>Nathan & Sarah Green</p>
