Qwest is providing a window of time (greater than 12 months) from the deployment of the IMA XML interface until the retirement of IMA EDI to allow adequate time for IMA EDI CLECs to migrate to the XML interface. During December of 2005, Qwest introduced SCR121305-01, Implement XML Interface for IMA EDI that will be implemented in Production with the IMA 20.0 release scheduled to deploy on October 16, 2006.
