I am a PSE customer and I am very concerned about PSE's 2023 Gas Integrated Resource Plan and its "Preferred Portfolio." I find it absolutely unacceptable that the PSE would charge its customers \$10 billion to pay the CCA penalties. The PSE could avoid charging its customers the penalties it would incur by simply accepting alternatives that would achieve real emission reductions. As a mother of two children, my children can't afford my silence on this matter. We are all experiencing the effects of climate change - as evidenced by our smoky air due to what has become an annual heat and fire season.

I strongly agree with the [Washington Clean Energy Coalition's letter](#), dated May 8, 2023.

Please reject PSE's Gas Integrated Resource Plan. Thank you.
