RE: Action Required by December 31, 2007
EMERGENCY CONTACT INFORMATION

Compliance Filing WAC 480-120-414
Docket UT-072149

Dear Telecommunications Service Provider,

In order to enable effective response to natural, accidental or man-made disasters the Washington Utilities & Transportation Commission and the state Emergency Management Division maintain duplicate lists of emergency contacts for certified telecommunications providers. In reviewing our records we have found that there are a number of companies that do not have current information on file as required by WAC 480-120-414 (see next page). Please take a few minutes to review your records and send us a current emergency contact.

Our contact lists need to include facilities-based, non-facilities-based and resale carriers alike: if you have customers in Washington we need to know how to reach the right person in an emergency. Please make sure we have that information before December 31, 2007 at the latest.

We will be happy to answer questions or assist as needed. You can contact Rebecca Beaton at 360.664.1287 or rbeaton@utc.wa.gov.

Please refer to docket UT-072149 and send your current emergency contact information electronically to: records@utc.wa.gov or by regular mail to: Executive Secretary, Washington Utilities and Transportation Commission. Attention: Record Center, Docket UT-072149, PO Box 47250, Olympia, WA 98504-7250.
