**United States Cellular (U.S. Cellular) Unfulfilled Voice and Broadband Telephony Service
Requests Resolution
FCC Form 481 Line 310/330**

If a request comes from a customer residing in any area where U.S. Cellular does not provide service, U.S. Cellular follows a series of steps to provide service:

- * First, it determines whether the customer's equipment can be modified or replaced to provide acceptable service;
- * Second, it determines whether a roof-mounted antenna or other network equipment can be deployed at the premises to provide service;
- * Third, it determines whether adjustments at the nearest cell site can be made to provide service;
- * Fourth, it determines whether there are any other adjustments to network or customer facilities which can be made to provide service;
- * Fifth, it explores the possibility of offering the resold service of carriers that have facilities available to that location; and
- * Sixth, U.S. Cellular determines whether an additional cell site, a cell-extender, or repeater can be employed or constructed to provide service, and evaluates the costs and benefits of using scarce high-cost support to serve the number of customers requesting service.

If there is no possibility of providing service short of these measures, U.S. Cellular will notify the customer and notify the Commission as to the number of requests for service that could not be filled in its next annual report filed pursuant to Section 54.313 of the Commission's Rules.

Functionality in Emergency Situations

FCC Form 481 Line 610

Section 54.313(a)(6) requires ETCs to certify that they are “able to function in emergency situations as set forth in §54.202(a)(2)”¹ in connection with their provision of voice and broadband services. Although the Commission’s Rules do not require an ETC to describe how it is capable of handling emergencies, Section 54.202(a)(2) of the Commission’s Rules requires that each eligible telecommunications carrier (“ETC”) *applicant* must “[d]emonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to re-route traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”² Although United States Cellular Corporation is not an applicant, it will rely on Section 54.202(a)(2) to describe its network’s emergency functionality for purposes of Section 54.313(a)(6) as follows:

United States Cellular Corporation 1) deploys generators, batteries, and microwave facilities to ensure that a reasonable amount of back-up power is be available to ensure functionality without an external power source; 2) employs a state-of-the art National Network Operations Center (“NNOC”) which monitors and manages our redundant core network to ensure our customers’ voice and broadband services are fully operational; and (3) United States Cellular Corporation uses a combination of technologies to manage spikes in voice and broadband traffic resulting from emergency situations.

Line 920 – Tribal Engagement

United States Cellular Corporation (“U.S. Cellular” or the “Company”) serves Tribal lands in Washington (SAC 529001) that are within the jurisdiction of the Confederated Tribes of the Chehalis Reservation, the Confederated Tribes and Bands of the Yakama Nation, the Quinault Tribe of the Quinault Reservation, the Shoalwater Bay Tribe of the Shoalwater Bay Indian Reservation, the Squaxin Island Tribe of the Squaxin Island Reservation, and the Skokomish Indian Tribe of the Skokomish Reservation (the “Tribal Governments”). For purposes of fulfilling its Tribal engagement obligations, as adopted by the Commission, during 2012, 2013, 2014 and 2015, representatives of the Company made multiple attempts to engage the Tribal Governments in discussions regarding its wireless service and potential benefits to the Tribal lands.

The topics for proposed discussion were: (1) needs assessment and deployment planning with a focus on Tribal Government community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services in a culturally sensitive manner; (4) rights of way processes; (5) land use permitting requirements; (6) facilities siting rules; (7) environmental review processes; (8) cultural preservation review processes; and (9) Tribal Government business and licensing requirements.

U.S. Cellular contacted the Tribal Governments via certified letter on November 12, 2012 and again, with a follow up letter on December 21, 2012, January 14, 2014, August 28, 2014, and August 27, 2015 to request a meeting to discuss the above matters. U.S. Cellular received no response to its multiple requests to engage the Tribal governments in discussions.

Pursuant to the *Tribal Engagement Further Guidance Public Notice*,¹ the Company hereby certifies that, during calendar year 2015, the Company (1) took the various steps described in the preceding paragraphs to comply with its annual Tribal engagement obligation; (2) engaged in attempts to schedule meetings with the Tribal Governments; and (3) has retained documentation of each such attempt.
