Dear UTC Commissioners,

I can't believe we're at this point in the global pandemic and uprisings for Black lives that I have to beg for something so basic.... but here we are.

Keeping households connected to power is important to me and it should be important to you too. If connecting people to basic needs like the electricity to run medical devices wasn't part of why you took this job, it should be now.

In line with that, I urge you to:

- Keep Washington families connected to power for the duration of the pandemic and through economic recovery.
- Erase the utility debt of low-income households.
- Require utilities to pay their fair share. Prohibit utilities from charging customers for lost customer load and fees they are legally prohibited from collecting.

Sincerely,
Shaun Glaze
