

Microsoft Corporation's  
Special Contract  
Final Renewable Portfolio Standard Report for the  
2019 Compliance Year

REDACTED VERSION

October 6, 2020

**Microsoft Corporation  
Special Contract  
Final Renewable Compliance Report – 2019  
Docket UE-161123**

Under the Special Contract and Settlement Stipulation and Agreement (“Settlement”) the Washington Utilities and Transportation Commission (“Commission”) approved in the above-referenced docket, Microsoft Corporation committed to meeting a certain percentage of its load taking service under the Special Contract with Eligible Renewable Resources. For 2019, the applicable percentage was 25%.<sup>1</sup>

The Special Contract and Settlement commit Microsoft to providing Puget Sound Energy (“PSE”) with an annual renewable portfolio standard report (“RPS Report”) by March 31 of each year identifying the renewable resources Microsoft has secured to meet its renewable energy requirement for the target year, which PSE then files with the Commission.<sup>2</sup> The Commission acknowledged Microsoft’s compliance with this requirement in 2019 through a compliance letter dated August 8, 2019.

Neither the Special Contract nor the Settlement explicitly require Microsoft to file a final compliance report demonstrating that it actually achieved compliance with the renewable energy requirement. Nevertheless, Microsoft is submitting this final compliance report for 2019 both because it believes such a report is contemplated by the Special Contract and Settlement and because Microsoft committed to providing such a report in its 2019 RPS Report.<sup>3</sup>

Microsoft began taking service under the Special Contract on April 1, 2019. The renewable generation acquired for Microsoft’s 2019 compliance year is summarized below by vintage year and fuel type. The total number of RECs retired equals 100% of the MWhs Microsoft purchased under the Special Contract in 2019.<sup>4</sup>

---

<sup>1</sup> Special Contract § 4.9.2.1(a); Settlement ¶ 13.a.

<sup>2</sup> Special Contract § 4.9.3; Settlement ¶ 13.a.vi.

<sup>3</sup> Microsoft Annual Renewable Portfolio Standard Report for the 2019 Target Year at 2 § 3.

<sup>4</sup> Microsoft’s 2019 RPS report identified ██████████ MWhs as the average load anticipated to be served under the Special Contract in 2019, and ██████████ as the renewable energy target. *Id.* at 2 § 2. Microsoft’s actual load served under the Special Contract in 2019 was ██████████ MWhs and, thus, was lower than forecasted.

Summary of 2019 MSFT Renewable Energy Compliance (in RECs)

Facility Name	Facility Type	Vintage Year 2018	Vintage Year 2019	Vintage Year 2020	Total
Rocky Reach	Incremental Hydro				
Rock Island	Incremental Hydro				
Lake Chelan	Incremental Hydro				
Nine Canyon	Wind				
White Creek	Wind				
<b>Total</b>					

The corresponding retired WREGIS certificates are listed in Confidential Attachment 1 to this Report. The WREGIS certificates retirement report is also included as Confidential Attachment 2.

CARBON-FREE ENERGY PURCHASE AGREEMENT

Dated February 28, 2019
