Hi Team. I think this message relates to the PSE PCORP. If so, we should include it in our public comment exhibit whenever we file it, and we should respond to Brennen.

[EXTERNAL]

All,

I will not be able to attend the public hearing in April but would like to voice my concerns for this proposal. I am opposed to this measure. Electricity costs in the Seattle region are already extremely high. Numerous individuals have already suffered during the pandemic and increasing costs on a vital need will not help. PSE does not seem to be hurting or in crucial need of this extra revenue. With how much power is already produced in this state, the ever increasing rates of electricity in this area does not make sense. The cost of living in this area is already forcing numerous people to leave this region for good.

Please deny this proposition,

Brennen
