## **(A)2. DEFINITIONS**

- (A)2.1 "Access Service Request" or "ASR" means the industry standard forms and supporting documentation used for ordering Access Services and Local Interconnection Service.**
- (A)2.2 "Access Services" refers to the Tariffed interstate and intrastate switched access and private line transport services offered for the origination and/or termination of interexchange traffic, including phone to phone voice interexchange traffic that is transmitted over a carriers' packet switched network using protocols such as TCP/IP (see each Party's appropriate state and interstate access Tariffs).**
- (A)2.3 "Act" means the Communications Act of 1934 (47 U.S.C. 151 et. seq.), as amended by the Telecommunications Act of 1996, and as from time to time interpreted in the duly authorized rules and regulations of the FCC or a Commission within its state of jurisdiction.**
- (A)2.4 "Automatic Number Identification" or "ANI" means a Feature Group D signaling parameter which refers to the number transmitted through a network identifying the billing number of the calling party.**
- (A)2.5 "Basic Exchange Features" are optional end user switched services that include, but are not necessarily limited to: Automatic Call Back; Call Trace; Caller ID and Related Blocking Features; Distinctive Ringing/Call Waiting; Selective Call Forward; and Selective Call Rejection.**
- (A)2.6 "Basic Exchange Telecommunications Service" means a service offered to end users which provides the end user with a telephonic connection to, and a unique local telephone number address on, the public switched telecommunications network, and which enables such end user to generally place calls to, or receive calls from, other stations on the public switched telecommunications network. Basic residence and business line services are Basic Exchange Telecommunications Services. As used solely in the context of this statement and unless otherwise agreed, Basic Exchange Telecommunications Service includes access to ancillary services such as 911, directory assistance and operator services.**
- (A)2.7 "Bona Fide Request" or "BFR" means a request for a new interconnection or unbundled element not already available in this Agreement for the provision of local telecommunications services.**
- (A)2.8 Busy Line Verify/Busy Line Interrupt or "BLV/BLI Traffic" means an operator service call in which the caller inquires as to the busy status of or requests an**

- (A)2.37 "Point of Interface", "Point of Interconnection", or "POI" is a point of demarcation where the exchange of traffic between two LECs (including a LEC and a Co-Provider) takes place.
- (A)2.38 "Port" means an access point on a central office switch but does not include switch features.
- (A)2.39 "Rate Center" means the specific geographic point and its corresponding geographic area, (associated with one or more specific NPA-NXX codes and various Wire Centers), being used for billing and measuring Basic Exchange Telecommunications Service. For example, a Rate Center will normally include several Wire Centers within its geographic area, with each Wire Center having one or more NPA-NXXs.
- (A)2.40 "Rate Center Area" is the geographic area within which basic exchange services are provided for NPA-NXX designations associated with a particular Rate Center.
- (A)2.41 "Reseller" is a category of local exchange service provider that obtains dial tone and associated Telecommunications Services from another provider through the purchase of finished services for resale to its end users.
- (A)2.42 "Service Control Point" or "SCP" means a signaling end point that acts as a database to provide information to another signaling end point (i.e., Service Switching Point or another SCP) for processing or routing certain types of network calls. A query/response mechanism is typically used in communicating with a SCP.
- (A)2.43 "Signaling Transfer Point" or "STP" means a signaling point that performs message routing functions and provides information for the routing of messages between signaling end points. A STP transmits, receives and processes Common Channel Signaling ("CCS") messages.
- (A)2.44 "Switched Access Service" means the offering of transmission and switching services to Interexchange Carriers for the purpose of the origination or termination of telephone toll service. Switched Access Services include: Feature Group A, Feature Group B, Feature Group D, 8XX access, and 900 access and their successors or similar Switched Access services. Switched Access traffic, as specifically defined in USW's state and interstate Switched Access Tariffs, is traffic that originates at one of the Party's end users and terminates at an IXC point of presence, or originates at an IXC point of presence and terminates at one of the Party's end users, whether or not the traffic transits the other Party's network.
- (A)2.45 "Tariff" as used throughout this Agreement refers to USW interstate Tariffs and state Tariffs, price lists, price schedules and catalogs.
- (A)2.46 "Telecommunications Carrier" means any provider of Telecommunications Services, except that such term does not include aggregators of Telecommunications Services (as defined in Section 226 of the Act). A

Rates, terms and conditions for ordering and billing Private Line Transport Services are found in the state and interstate Private Line catalogs and Tariffs.

The Hub Location POI cannot be used to pick up/connect to UNEs.

## **(C)2. Reciprocal Traffic Exchange**

### **(C)2.1 Description**

- (C)2.1.1 Reciprocal traffic exchange addresses the exchange of traffic between Northwest's network and USW's network. If such traffic is Exchange Service (EAS/Local), the provisions of this Agreement shall apply. Where either Party acts as an Exchange Access (IntraLATA Toll) provider, each Party shall bill the other symmetrical rates using USW's Tariffed Switched Access rates as a surrogate. Where either Party interconnects and delivers traffic to the other from third parties, each Party shall bill such third parties the appropriate charges pursuant to its respective Tariffs or contractual offerings for such third party terminations. Absent a separately negotiated agreement to the contrary, the Parties will directly exchange traffic between their respective networks without the use of third party transit providers.
- (C)2.1.2 The traffic types to be exchanged under this Agreement include:
- (C)2.1.2.1 Exchange Service (EAS/Local) traffic as defined in this Agreement.
  - (C)2.1.2.2 Exchange Access (IntraLATA Toll) traffic as defined in this Agreement.
  - (C)2.1.2.3 Jointly Provided Switched Access (InterLATA and IntraLATA presubscribed/dial around) traffic as defined in Access Tariffs and referenced in this Section.
  - (C)2.1.2.4 Transit traffic is any traffic that originates from one Telecommunications Carrier's network, transits another Telecommunications Carrier's network, and terminates to yet another Telecommunications Carrier's network. For the purposes of this Agreement, transit traffic does not include traffic carried by Interexchange Carriers. That traffic is defined as Jointly Provided Switched Access.

Transit service is provided by USW, as a local and access tandem provider, to Northwest to enable the

Pac-West Telecomm, Inc.  
Exhibit A  
Washington

12.4	Trouble Isolation Charge			See 9.20	
17.0	Bona Fide Request Process				
17.1	Processing Fee			\$1,667.18	E
<b>NOTES:</b>					
*	Unless otherwise indicated, all rates are pursuant to Washington Utilities and Transportation Commission Dockets:				
A	Generic Cost Docket, UT-980369				
B	Docket UT-003013, Part A				
C	Docket UT-003013, Part B				
D	Docket UT-003013, Part C				
E	Docket UT-003013, Part D				
F	Docket UT-023003				
#	Denotes voluntary rate reduction. These rates are not subject to true up and will be applied on a going forward basis. Deaveraged loop and subloop (distribution and feeder) rates are pursuant 37th supplemental order in Docket UT-003013.				
1	Rate not addressed in a cost proceeding (Estimated TELRIC)				
2	Market based rates not addressed in the Cost Docket.				
3	Individual Case Basis				
4	Rate per FCC guidelines.				
5	Qwest has agreed to a bill and keep arrangement for EICT, pursuant to 271 workshops.				
6	When Intrastate Tariffed DS3 Private Line Transport (PLTS), Local Interconnection Service (LIS) or EEL share the same PLTS multiplexed DS3, the fraction of DS0's dedicated to LIS, EEL, or Intrastate PLTS is divided by 672 and multiplied by the applicable products' DS3 rate elements. The Qwest mechanized implementation team will notify the Qwest Service Delivery LIS process manager of this customer-specific requirement.				
7	Qwest has not implemented the NID recurring charge but reserves the right to assess such a charge in the future.				
8	Intentionally Left Blank				
9	Intentionally Left Blank				
10	The provision of transiting services is not required pursuant to Section 251 of the Telecommunications Act. Qwest has chosen to offer this service as part of its interconnection agreement, but this service is not required to be priced according to a TELRIC methodology.				
11	Rate was ordered for a similar element and is being used because the costs for this element are the same.				
12	Rate was previously ordered for this element in a different section of Exhibit A.				
13	The preliminary engineering and planning costs are included in the virtual, caged and cageless space construction charges. These engineering and planning charges are also included in the virtual, caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job.				
14	Qwest is reinstating the Cable Unloading and Bridge Tap Removal Charges effective 3/14/05. Because Qwest can't currently bill the existing rate structure, customers will be charge the Lower Bridge Tap Removal rate for either Cable Unloading or Bridge Tap Removal				
15	Effective 8/1/03 Qwest will no longer charge for Channel Regeneration for both recurring and nonrecurring charges. Contract amendments to remove the charge is not required. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given. Future regulatory ruling and/or events may be subject to the conditions described under "Change in Law Provisions" of the SGAT (Section 2.2) or the applicable interconnection agreement.				
@	Negotiated Rate				

## PART H - WASHINGTON RATES

Rate Element	Rates	
<b>H1. Resale</b>		
- Services not available for resale		
<ul style="list-style-type: none"> <li>• Customer Premises Equipment (separately or in a package)</li> <li>• Enhanced Services</li> <li>• Deregulated Services (Inside Wire, including installation, sale or maintenance)</li> <li>• USW Calling Card</li> <li>• Concession Service</li> <li>• Promotions of less than 90 days</li> </ul>		
- Wholesale Discount Rates	<b>Wholesale Discount % Recurring Charges</b>	<b>Wholesale Discount % Nonrecurring Charges</b>
- All USW Telecommunications Services with the exception of the services not available for resale above and as qualified below. (Cost Docket Discount Level 14.69%)	16%	N/A
- The following services are available only to the same class of customer eligible to purchase that service from USW:		
<ul style="list-style-type: none"> <li>• Grandfathered</li> <li>• Residence</li> <li>• Lifeline/Link-up</li> </ul>		
- The following service is available for resale under this Agreement but is not included in the wholesale pricing reflected above:		
<ul style="list-style-type: none"> <li>• Private Line Used for Special Access</li> </ul>		
- Telecommunications services offered by USW at a volume discount are available at the lower of the 16% discount of the retail rate or at the undiscounted volume discount.		
- IntraLATA Toll Charges: [Co-Provider] shall have their choice of obtaining USW provided intraLATA toll for resale at a 16% discount or providing their own intraLATA toll. Whichever toll provisioning arrangement [Co-Provider] selects (either USW provided or intraLATA toll self-provisioned by [Co-Provider]) shall apply uniformly to all lines resold by [Co-Provider].		
	<b>Recurring Charge</b>	<b>Nonrecurring Charge</b>
- Customer Transfer Charge (CTC)		
The following nonrecurring charges apply when converting a USW account to a [Co-Provider] account or when changing an end user from one Co-Provider to another.		
- Residence or Business		
- 1 <sup>st</sup> line, Mechanized	N/A	\$ 14.56
- Additional Line, Mechanized	N/A	\$ 6.57
- 1 <sup>st</sup> line, Manual	N/A	\$ 27.52
- Additional Line, Manual	N/A	\$ 7.12

Rate Element	Rates	
- Private Line Transport Services		
- First Circuit	N/A	\$ 45.08
- Additional Circuit, per circuit, same CSR	N/A	\$ 31.19
- Advanced Communications Services, per circuit	N/A	\$ 50.48
- Product Specific Nonrecurring Charges: As set forth in USW tariffs, the product specific nonrecurring charges, without discount, will apply when additional lines or trunks are added or when the end user adds features or services to existing lines or trunks.		
<b>H2. Reciprocal Traffic Exchange</b>		
- Entrance Facilities	<b>Recurring Charge</b>	<b>Nonrecurring Charge</b>

Category 11 Mechanized Record	\$ 0.0025	N/A

(C)2.3.2.2.4 Fixed Charges per DS1 or per DS3 and per mile charges are defined for DTT in Part H of this Agreement.

(C)2.3.2.3 When the Parties elect to establish two-way trunks, the compensation for such jointly used, shared facilities shall be adjusted as follows.

The provider of the DTT will always bill 100% of the charges for the facility to the other Party, who will in turn, bill the provider 50% of the DTT charges. Payments according to this 50/50 allocation of traffic will continue until either Party provides actual minutes of use data to substantiate a change in the allocation.

(C)2.3.2.4 Multiplexing options (DS1/DS3 Mux) are available at rates described in Part H of this Agreement.

(C)2.3.3 Trunk Nonrecurring Charges

(C)2.3.3.1 Installation nonrecurring charges may be assessed by USW for each LIS trunk ordered by Northwest, at the rates specified in Part H of this Agreement.

(C)2.3.3.2 Rearrangement nonrecurring charges may be assessed by USW for each LIS trunk rearrangement ordered by Northwest, at one-half the rates specified in Part H of this Agreement.

(C)2.3.4 Exchange Service (EAS/local) Traffic

(C)2.3.4.1 End Office Call Termination

(C)2.3.4.1.1 The Parties agree that per minute of use call termination rates as described in Part H of this Agreement will apply reciprocally for the termination of Exchange Service (EAS/Local) traffic.

(C)2.3.4.1.2 For purposes of call termination, the Northwest switch(es) shall be treated as end office switch(es), unless Northwest's switch(es) meet the definition of tandem switch in this Agreement.

(C)2.3.4.1.3 As set forth above, the Parties agree that reciprocal compensation only applies to Local Traffic and further agree that the FCC has determined that traffic originated by either

Party (the "Originating Party") and delivered to the other Party, which in turn delivers the traffic to an enhanced service provider (the "Delivering Party") is primarily interstate in nature. Consequently, the Delivering Party must identify which, if any, of this traffic is Local Traffic. The Originating Party will only pay reciprocal compensation for the traffic the Delivering Party has substantiated to be Local Traffic. In the absence of such substantiation, such traffic shall be presumed to be interstate.

(C)2.3.4.1.4 Neither Party shall be responsible to the other for call termination charges associated with third party traffic that transits such Party's network.

(C)2.3.4.2 Tandem Switched Transport

(C)2.3.4.2.1 For traffic delivered through a USW or Northwest local tandem switch (as defined in this Agreement), the tandem switching rate and the tandem transmission rate in Part H of this Agreement shall apply per minute in addition to the end office call termination rate described above.

(C)2.3.4.2.2 Mileage shall be measured for the tandem transmission rate elements based on V&H coordinates between the local tandem and terminating end office. If actual mileage cannot be measured, an assumed one mile will be used.

(C)2.3.4.2.3 When Northwest terminates traffic to a USW remote office, additional tandem transmission rates will be applied for the mileage between the USW host office and the USW remote office.

(C)2.3.5 Miscellaneous Charges

(C)2.3.5.1 Cancellation charges will apply to cancelled LIS trunk orders, based upon rates, terms and conditions described in State Access tariffs.

(C)2.3.5.2 Expedites for LIS trunk orders are allowed only on an exception basis with USW executive approval within the same timeframes as USW provides for other designed services. When expedites are approved,
