**RE: UE-190882—Revised Exhibit CLT-2CCr**

PacifiCorp dba Pacific Power & Light Company submits the enclosed revised Exhibit CLT-2CCr as requested at the evidentiary hearing held on February 14, 2020.

The company is providing a revised exhibit to include the entire ownership and operation agreement instead of the excerpt included in the original filing.

Consistent with the protective orders<sup>1</sup> and WAC 480-07-160 that were issued in both dockets, Pacific Power has shaded the appropriate company confidential information and specified where the information is appropriately company-confidential. Company-confidential testimony and exhibits are provided to the Commission in accordance with WAC 480-07-160. The company confidential testimony and exhibits include valuable commercial information, specifically information related to the internal operational details of generating facilities. Disclosure of such information would harm Pacific Power and other third-party co-owners of the Colstrip generating facility by making operational details and decision-making procedures available to suppliers and competitors.

Please direct inquiries to Ariel Son, Regulatory Affairs Manager, at (503) 813-5410.

Sincerely,

                  /s/
