RE: Docket TG-041481 Reporting Requirements

Dear Mr. Lautenbach:

On March 2, 2005, parties to the proceeding in Docket TG-041481 and the Washington Refuse and Recycling Association filed a Settlement Agreement (Agreement) with the Washington Utilities and Transportation Commission (commission). The Agreement required T & T Recovery, Inc. (T & T) to document its transport of recyclables and solid waste incidental to its demolition business for a period of 18 months. Under the Agreement, T&T was required to:

- Keep records of its recycling, demolition and cleanup hauling and report specific information to the commission and the parties for a period of 18 months following the Agreement.
- Label its containers.
- Provide job site supervisors with brochures clearly identifying acceptable recyclable materials and banned materials.
- Refuse to collect containers with unacceptable quantities of solid waste or banned materials.
- Investigate and report to commission staff any claims of violations of the Agreement made by other parties to the Agreement.

You have met the reporting requirements. The commission received the last report (for August 2006) on September 12, 2006. As we received each report on a monthly basis, we verified each haul that was reported taken to a receiving facility had a corresponding receipt from that receiving facility. In addition, we verified that receipt totals matched the receiving facility totals on your report summary sheet.

T & T Recovery, Inc.

Page 2

Based on the information provided by you in accordance with the Agreement, we did not find any indication that T & T is hauling solid waste without a permit. This matter is now closed.

If you have any questions, you may contact Sheri Hoyt, Compliance Specialist, Business Practices Investigations Section. Ms. Hoyt can be reached at (360) 664-1149, or by e-mail at shoyt@wutc.wa.gov.

Sincerely,

A handwritten signature in cursive script, appearing to read "Carole J. Washburn".
