RE: TDS Long Distance Corporation Informational Filing

Dear Mr. Danner:

In Docket UT-000890, dated June 28, 2000, the Washington Utilities and Transportation Commission granted TDS Long Distance Corporation (TDS LD) the authority to provide to competitive intraLATA toll service throughout the State of Washington.

This informational filing is being provided for your records. TDS LD has purchased and will implement, in the near future, switching facilities to route portions of its long distance telecommunications services. On January 30, 2009, the FCC issued the company a new license in File Number ITC-214-20090106-00010 to provide both facilities-based and resold telecommunications service. There are no customer impacts as a result of this change. There are no other substantive changes.

If you have any questions regarding the above information, please contact Jennifer Lautenschleger at 608-664-4148.

Sincerely,

Amber Gaudreau
Sr. Administrator, Regulatory Compliance
