

Agenda Date: February 27, 2002
Item Number: 3B

Docket: TO-020117
Company Name: Chevron Pipe Line Company

Staff: Bob Colbo, Transportation Program Staff

Recommendation:

Issue a complaint and order suspending the tariff revisions filed by Chevron Pipe Line Company (Chevron) in Docket TO-020117.

Discussion:

On February 4, 2002, Chevron filed a cancellation supplement to its WUTC Tariff No. 43, which governs the transportation of petroleum products from Pasco to Spokane, Washington. Chevron represents there have been no intrastate movement of products in the last two years, however it has consistently paid regulatory fees on Washington intrastate operations. The Company has not demonstrated that its operations do not include Washington intrastate traffic.

Staff recommends the Commission issue a complaint and order suspending the tariff revisions in their request to cancel their WUTC Tariff No. 43 in Docket TO-020117.
