Chris Hoidal  
Director-Western Region  
Office of Pipeline Safety  
12600 West Colfax Ave, Suite A-250  
Lakewood, Colorado 80215-3736

Dear Mr. Hoidal:

**Subject: Williams Gas Pipeline West, Plymouth LNG Peak Shaving Facility**

The Washington Utilities and Transportation Commission has completed a standard inspection of Williams Gas Pipeline West, Plymouth LNG Peak Shaving facility located in Plymouth, Washington. A review of records and plant facilities was conducted on-site between December 1 and December 5, 2002.

The inspection did not find any non-compliance items, but did note 4 areas of concern and 6 notices of amendment involving procedures, records review, maintenance schedules and plant security. Along with this letter, please enclosed the Post Inspection Memorandum, IOCS Data Form, Standard Inspection Report for an LNG Facility, fire control system maintenance records, and fire pump servicing procedure.

Staff would also like to commend Williams' personnel on the professional and cooperative manner in which they worked with WUTC staff during this inspection. If you have any questions, please contact Scott Rukke at (360) 664-1241.

Sincerely,

Steve King  
Acting Pipeline Safety Director
