NOTES:

* Unless otherwise indicated, all rates are pursuant to rates approved Cost Dockets UT-960369 and UT-003013 Part B Effective 5/23/03 and Part D Effective 6/26/03...

Denotes voluntary rate reduction. These rates are not subject to true up and will be applied on a going forward basis. Deaveraged loop and subloop (distribution and feeder) rates are pursuant 37th supplemental order in docket UT-003013.

Additional reduction to the voluntary reductions reflected in the September 26, 2002 exhibit.

Rate voluntarily deaveraged to be consistent with the deaveraged loop rate. Deaveraging approach subject to review in the next phase of the cost docket.

[1] Reserved for future use

[2] Rate not addressed in a cost proceeding

[3] Individual Case Basis

[4] Rate per FCC guidelines.

- [5] Estimated TELRIC based rate not yet addressed in a cost proceeding
- [6] Market based rates not addressed in the Cost Docket.
- [7] Rate has been ordered in a different section and is being used due to the similar characteristics of the element. This rate will be replaced when a rate is developed or ordered for this product.

[8] Qwest has agreed to a bill and keep arrangement for EICT, pursuant to 271 workshops.

[9] Qwest will utilize the Commission TELRIC ordered rates for this element. However, Qwest reserves its right to implement market based prices sometime in the future pursuant to CC Docket No. 96-98, paragraphs 278-287.

[10] Rate is a blended rate of Local Forecasted Capacity (9.8.2.3 \$0.0006) & Access Forecasted Capacity (9.8.3.2 \$0.00217)

[11] Must Designate Usage Percentage of Local and Access Traffic

[12] SRP- Special Request Process is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place.

				Non		
			Recurring	Recurring	Notes	
[13]	13] The preliminary engineering and planning costs are included in the caged and cageless space construction charges. These engineering and planning charges are also included in the					
	caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for					

caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed on the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.

[14] Loop Conditioning charges (Cable Unloading/Bridge Tap Removal) will not apply through 11/30/03

[15] Effective 8/1/03 Qwest will no longer charge for Channel Regeneration for both recurring and nonrecurring charges. Contract amendments to remove the charge is not required. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given. Future regulatory ruling and/or events may be subject to the conditions described under "Change in Law Provisions" of the SGAT (Section 2.2) or the applicable interconnection agreement.

^[16] When intrastate tariffed DS3 Private Line Transport (PLTS), Local Interconnection Service (LIS) or EEL share the same PLTS multiplexed DS3, the fraction of DSO's dedicated to LIS, EEL, or intrastate PLTS is divided by 672 and multiplied by the applicable products' DS3 rate elements. The Qwest mechanized implementation team will notify the Qwest Service Delivery LIS process manager of this customer-specific requirement.
