Re: Bremerton Rate Center Numbering Waiver

Dear Ms. Washburn:

By this letter Qwest is requesting a waiver of the utilization threshold requirements outlined in FCC's Numbering Resource Optimization Orders, FCC 00-429 and FCC 01-362 released in CC Docket No 99-200, which would allow PA/NeuStar, the Number Pooling Administrator, to open a new NXX to meet the needs of a specific Qwest customer.

The customer request is for 10,000 sequential telephone numbers in the 360 NPA, Bremerton Rate Center. Specifically, the customer has requested that the numbers be in a single prefix and that the NXX cannot end with an 8 or 9 in order to work with their internal dialing plan requirements. The customer intends to have the new numbers in use by November 2008. Qwest asks that the WUTC authorize NeuStar to reserve and assign an NXX that would meet the customer's needs from the 360 NPA Bremerton Rate Center. The 360 NPA is forecasted to exhaust in the fourth quarter of 2011. There are 66 unassigned NXXs in the 360, and 22 blocks in the PA pool inventory for the Bremerton Rate Center.

The customer intends on returning over 1,000 of their current inventory of telephone numbers after the new numbers are in service. The original customer request has been provided with this letter as Confidential Attachment A.

In our effort to satisfy the customer's request, Qwest submitted a request to PA/NeuStar on May 30, 2008 for additional numbering resources. That application and the subsequent denial have been provided as Confidential Attachment B. In order for the request to be approved, Qwest will require a waiver of the current usage threshold for new numbering requests.

The FCC allows for a waiver of the rules when there is demonstrated need such as a specific customer request for a large block of numbers. The waiver process is specifically addressed in the FCC Third Report and Order ("Order") as the "safety valve" process (See FCC 01-362, paras. 57-66), which went into effect on March 14, 2002. The Order delegates the authority to hear claims for waivers to the state commissioners and recommends that state commissions act expeditiously. The Order proposes that state commissions review a waiver within 10 business days. (See Paras. 61,66)

Qwest respectfully requests that the Commission approve the request for a waiver of months to exhaust and rate center utilization threshold requirements, and direct PA/NeuStar to reserve and assign one NXX in the 360 NPA in the Bremerton Rate Center to accommodate our customer's request.

All directives can be emailed, faxed or mailed directly to:

Kevin Gatchell
PA Code Administrator
NeuStar, Inc.
