RE: Filing for a Special Fuel Surcharge, Docket TC-130141

Dear Mr. Fricke:

On February 1, 2013, Pacific Northwest Transportation Services, Inc., dba Capital Aeroporter (the Company), filed with the Washington Utilities and Transportation Commission (Commission) a special fuel surcharge filing of \$2.25 per one-way passenger, which the Commission assigned Docket TC-130141. The Company requested the Commission make the surcharge effective on February 6, 2013.

I must deny your request. As you were previously advised by Commission Order and a separate email from Staff, Order 05, issued in Docket A-042090, became effective May 2, 2011. Therefore, every filing effective on or after May 2, 2011, must comply with Order 05. Your filing fails to meet the condition set forth in Ordering Paragraph 2(b) that a company seeking a temporary fuel surcharge must "demonstrate as part of its application that the surcharge will not generate revenues in excess of the authorized portion of the difference between current fuel prices and the fuel costs embedded in the company's rates or fares that the surcharge is intended to recover...." The Order directs the Commission secretary to reject any application that fails to make the requisite demonstration.

The Company's \$1.50 per one-way passenger fuel surcharge that became effective on January 14, 2013, pursuant to Docket TC-130035, will remain in effect until February 11, 2013.
