SECTION 2
1st Revised Sheet 2-13
Cancels Original Sheet 2-13

2. GENERAL REGULATIONS

2.3 OBLIGATIONS OF THE CUSTOMER (Cont'd)

2.3.10 JURISDICTIONAL REPORT REQUIREMENTS

A. Percent Interstate Usage (PIU)

1. Pursuant to Federal Communications Commission Order FCC 85-145 adopted April 16, 1985, interstate usage is to be developed as though every call that enters a customer network at a point within the same state as that in which the called station (as designated by the called station number) is situated is an intrastate communication and every call for which the point of entry is in a state other than that where the called station (as designated by the called station number) is situated is an interstate communication.
2. When the Telephone Company has measurement capability to provide the data to determine the jurisdiction of the usage, the Telephone Company will determine the jurisdiction of the usage. In those instances where the Telephone Company cannot determine the jurisdiction, the projected interstate percentages will be used by the Telephone Company to apportion the usage between interstate and intrastate until a revised report is received as set forth in B.7., following.

(T)
—
(T)

B. Jurisdictional Reports

When the Telephone Company receives sufficient call detail to permit it to determine the jurisdiction of originating and terminating access minutes of use, the Telephone Company will bill using a PIU factor developed from these actual minutes of use and will not use the customer provided PIU factors provided as set forth in 1. through 10., following.

(D)
—
(D)

When the Telephone Company receives insufficient call detail to determine the jurisdiction, the Telephone Company will apply the customer's projected PIU factor, provided as set forth in 1. through 10., following, to apportion the usage between interstate and intrastate.

SECTION 6
 1st Revised Sheet 6-144
 Cancels Original Sheet 6-144

6. SWITCHED ACCESS SERVICE**6.8 RATES AND CHARGES (Cont'd)****6.8.3 LOCAL SWITCHING****RATE PER ACCESS MINUTE**

A. Premium Rates

- Originating	\$0.014441
- Terminating	0.001884 (R)

B. Interim USF Additive

- Per Terminating Access Minute	0.000000
---------------------------------	----------

C. End Office Shared Port

- Originating	0.000590
- Terminating	0.000428

**MONTHLY
RATES**

D. End Office Dedicated Trunk Port[1]

- Per DS0	\$ 4.83
- Per DS1	100.00

(T)

[1] The End Office Dedicated Trunk Port rate was calculated assuming a 50/50 split of the originating and terminating traffic using this flat-rated port. The FCC in their FCC 11-161 ICC Transformation order in section 51.907(d)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. When the terminating portion of the rate is reduced and then combined with the originating portion of the rate a single flat rate is generated for billing purposes. The Originating portion of the DS0 charge is \$2.42 and the Originating portion of the DS1 charge is \$50.00.
