| 6. Missed service due to a labor disruption, which causes work stoppages that prevent or limit a company from collecting solid waste. A company must: | | | | | | | |
| a. | a. Immediately inform the commission's regulatory services and consumer protection staff when a labor disruption is imminent by email at: servicedisruption@utc.wa.gov. This email must be used for all communications regarding the labor disruption. | | | | | | |
| b. | Provide daily email reports to the commission regarding the company's progress toward meeting full service requirements. | | | | | | |
| C. | Develop and implement a customer outreach plan regarding the labor disruption, what to expect, and how to contact the commission. | | | | | | |
| d. | Provide the commission's regulatory services and consumer protection staff with a copy of the customer outreach plan by email. | | | | | | |
| e. | Provide an email that includes a schedule and plan for communicating with local governments and the media. | | | | | | |
| f. | five business days, not including the first day of the labor disruption. Resuming services within five business days is presumptively reasonable and practicable; provided, however, that under specific circumstances arising at the time of a labor disruption, the presumption may be rebutted by evidence that the company acted contrary to the public interest and unreasonably delayed resumption of collection services. Relevant factors may include the company's resources; the circumstances of the labor disruption; the amount of time, if any, that the company had to prepare for the labor disruption; the company's execution of any contingency plan, if any; organization and training of any replacement workers; ambulatory picketing that might delay restoration of service; and workplace safety issues and coordination with local government agencies that may affect overall public safety. | | | | | | |

| h. | company collects the company did not under the company collects the collect | customers' accumulated solic inreasonably delay the restor ompany does not collect all or (g) above, or if the company as day grace period, the com | issed customers who do not red waste as required in subsectivation of service during the five facustomer's accumulated soly unreasonably delayed the rest pany is required to give a crediarge, for all missed services an restored. | on (g) above or if business day id waste as toration of service to the customer, | | |
| i. | . When the labor disruption has been settled, notify the commission's regulatory services and consumer protection staff by email, and indicate when normal service is anticipated to resume. | | | | | |
| 7. Defi | 7. Definitions: | | | | | |
| a. | "Reasonably would be expected to accumulate due to missed service" means, at a minimum, the amount of solid waste represented by the number of missed service(s) multiplied by the customer's subscribed service level. For example, if the company misses two services for a customer who subscribes to one 96-gallon toter, the amount would be the equivalent of 192 gallons (2 services x 96 gallons subscription per service). | | | | | |
| b. | "Next scheduled servi | ice date" – this date is define | d by each customer's subscrip | tion service. | | |
| | for every Wedn | esday. If the company does | es to weekly service that the control of the contro | | | |
| | | on Wednesday, November 7 | ibes to daily service. If the com | | | |
| | scheduled for \ | Wednesday, November 14. | es to every-other-week recyclin If the company does not proveduled service date would be | ide service on | | |
| C. | c. Example of how to calculate a credit: Monthly residential service rates are set based on 4.33 services per month. If the company misses one service, the credit is calculated as: .231 (1 missed service divided by 4.33 services per month) multiplied by the service-related component of the monthly rate (excluding disposal and processing costs); provided that the credit for any specific month does not exceed the full rate per month. Any customer credits for missed recycling services will include the recycling commodity credit. | | | | | |
