Hi Lori, I had the wrong battery amp hour size for crossing 396956E and made the changes in section 7 and 10. I changed the completion dates for both crossings to 12/31 15.

Thanks !!

Dave Cyr  
Columbia Basin Railroad

**Subject:** TR-143704 & TR-143705

Hi Dave,

I have been assigned two dockets for review and processing. You submitted these last year and we have moved them to the new GCPF biennium:

TR-143704 – USDOT 396428D  
TR-143705 – USDOT 396956E

I need a new estimated project completion date to enter on the form. Please send an email with a project completion date for each docket.

I hope to have the orders written within the next 30 days once I have this information.

Let me know if you have questions.
