Proposed rate change

On June 1, 2015, Pacific Power & Light Company (Pacific Power) submitted an advice filing with the Washington Utilities and Transportation Commission (Commission) requesting a change to Schedule 191, System Benefits Charge Adjustment, to recover the costs associated with acquiring cost-effective conservation in Washington and complying with the requirements of Initiative Measure No. 937.

If approved by the Commission, this proposed change will result in an increase of \$0.5 million, for an overall average increase to Washington customers of approximately 0.2 percent. A residential customer using approximately 1,300 kilowatt-hours (kwh) per month would see a bill impact of \$0.19 per month.
