The purpose of this tariff filing is to change the rate schedule number for Avista's "Decoupling Mechanism – Electric" from Rate Schedule 199 to Rate Schedule 175. It was recently discovered that the Company uses Schedule 199 in its billing and accounting systems for purposes of charging customers for certain tariffed services (e.g., miscellaneous charges under Rules and Regulations Schedule 170). As a result, the Company needs to utilize a different rate schedule (i.e., Schedule 175) for purposes of the annual decoupling rate adjustment, the first of which will occur in November 2016.

This filing is administrative in nature and does not otherwise result in a change to customers rates, terms or conditions of service. Avista requests the tariff revision to become effective August 1, 2015. If you have any questions regarding this filing, please contact me at 509-495-8620.

Sincerely,

A handwritten signature in black ink that reads "Patrick Ehrbar". The signature is written in a cursive style with a large initial "P" and a long horizontal flourish at the end.
