Investigator Wayne Gilbert contacted the address of record for this carrier and found the residence vacant with a for sale sign on the premises. It does appear the company has ceased operations or relocated with no known forwarding address.

Hi Alan,

Got your voice message and found it funny because I was working with this company today due to returned mail. We don't have a good mailing address on file. I have tried to contact them by phone and email with no avail.

I sent a letter to the insurance company today asking them for a Form K cancellation if the insurance is no longer valid.

So, at this point, I'm not sure the company is still in business. If I hear anything, I will be sure and let you know.

Tina
