RE: Tariff Submittal, Tariff Number 27, Murrey's Disposal Co., Inc. G-9.

Dear Mr. King:

Attached please find revised pages for Tariff Number 27, Murrey's Disposal Co., Inc. G-9.

This revised tariff filing is to correct a mathematical error that was found in a filing previously approved by the Commission, Docket TG-170036. The revenue requirement approved in that docket was correct, but the agreed upon rates did not generate the required revenue. This filing is to implement the correct rates, with no change to the original revenue requirement, other than the additional cost of notifying customers of these corrected rates, which is approximately \$13,000, or .08% additional annual revenue.

With this filing, we respectfully request the Commission approve the attached rate request to properly recover the capital investment, and other costs required for this new program, as previously agreed to by staff and the company.

Attached are the proposed revised tariff pages containing the corrected rates. We respectfully request Less Than Statutory Notice handling to allow the rates to become effective on November 1, 2017.

We also respectfully request that the Commission grant an exemption from the general rate case work paper rule at WAC 480-07-520 (4), as Staff will rely on the work papers previously audited under TG-170036 for this rate correction.

A rate increase notification letter will be mailed to all customers affected by these proposed changes no later than October 10, 2017.

If you have any questions regarding this filing, please contact me at (360) 695-4923 or via email at heatherg@wcnx.org.

Sincerely,

Heather Garland
Pricing Manager
