**Subject:** Loose Container Stream

Afternoon Ed,

Wanted to drop you a quick note to let you know that pricing for recycling commodities continue to fall. With that, effective March 1, 2019, the charge for the loose container stream that is delivered to our MRF in Woodinville will increase to (\$46.70)/ton. I realize that this seems like a sizable increase in our commodity charge,, but I can no longer absorb the decreases in commodity values like I have been over the past several months.

Thanks and feel free to give me a call with any questions.
