("Order 07"). Schedule 140 includes a mechanism for adjusting rates, both up and down, to pass through the cost of property taxes that PSE actually pays.

Schedule 140 provides that PSE must file revisions on or prior to April 15 for rates to be effective on May 1 of each year. To allow adequate time for Commission Staff's review, PSE and Commission Staff have verbally agreed to adjust the timing. Consistent with the adjusted timing, this initial filing is being made a minimum of 30 days prior to the effective date with an estimate of the current year taxes. In order to reflect in the filing, amounts actually billed to PSE for property taxes, a subsequent filing will be made as close to April 15 as possible that will update the estimates to actual amounts. The timing of the subsequent filing depends on when PSE receives its property tax bills from billing counties.

Overall, this proposal represents an average increase of 0.13 percent in bills for all customers and a \$4.7 million increase in revenue requirement. However, some rate schedules would slightly decrease. The typical residential customer using 900 kWh per month would experience a \$0.17 increase in their monthly bill.

WAC 480-100-194 provides that the published notice informing customers of proposed increases be provided at least thirty days prior to the effective date, which is prior to the date when the actual amount of the property taxes will be known, as discussed above. PSE will provide notice of this filing in conjunction with notice regarding all other filings with May 1, 2019, requested effective dates. PSE will provide such notice through a published notice as provided in WAC 480-100-194(2).

The tariff sheets described herein reflect issue dates of April 1, 2019, and effective dates of May 1, 2019. Posting of proposed tariff changes, as required by WAC 480-100-193, is being made by posting the proposed tariff sheets on the PSE web site coincident with the date of this transmittal letter.
