**RE: New appendix to *Island County Solid Waste and Moderate Risk Waste Management Plan*,
Preliminary Draft June 2019**

To whom it may concern:

Last week, the Department of Ecology (Ecology) received the *Island County Solid Waste and Moderate Risk Waste Management Plan*, Preliminary Draft June 2019 (Plan). Ecology forwarded it to the Utilities and Transportation Commission (UTC), and the UTC assigned it docket number TG-190504 on June 17, 2019.

As anticipated, Ecology has now received additional information for this Plan: the attached Alternative Program for Recycling in Langley and Freeland. Ecology has reviewed it and approved it. It satisfies RCW 70.95.090(7)(b)(i), which is among the elements necessary for a solid waste management plan. Today, Island County has agreed this document may be added as an appendix to the final draft of the Plan.

Please add the attached information to docket number TG-190504 and review it concurrently with the *Island County Solid Waste and Moderate Risk Waste Management Plan*, Preliminary Draft June 2019. It will be incorporated as an appendix in the final draft.
