

WN U-6      SUBSTITUTE ORIGINAL SHEET NO. 20

WESTERN WAHAKIAKUM COUNTY TELEPHONE COMPANY

SCHEDULE 1 (Continued)

ENHANCED 911 SERVICE (E911) (Continued)

CONDITIONS (Continued)

7. In order for E911 Service to be provided with respect to any Central Office served by the Company, the 911 Customer must order from the Company E911 Code Recognition/ANI and the provision of Subscriber Line Data. The 911 Customer must also order, either from the Company, from another LEC or from an Interexchange Carrier dedicated channels connecting the Company's Central Office directly with the PSAP, or, where suitable facilities exist, with the Central Office serving the PSAP or the 911 control office. Such transport facilities shall consist of not fewer than two end-to-end voice grade non-switched channels per Company End Office. This requirement may be waived by the Company when an End Office is a remote switch served by a Company-owned host switch.
8. Where the necessary dedicated channels are provided entirely by the Company and one or more other LECs and are not ordered by the 911 Customer from any IXC, the rates and charges payable by the 911 Customer to the Company for the portion of such channels furnished by the Company will be determined on the basis of the Company's Washington intrastate Special Access tariffs, with the following exceptions(s):
- (a) The following rates and charges shall apply, in lieu of the Company's corresponding Washington intrastate Special Access rates and charges, to 911 Transport and Transport Termination for the portion of dedicated E911 circuit channels furnished by the Company pursuant to this Schedule 1.

<u>Voice Grade Service</u>	<u>Monthly Rate</u>	<u>Non-Recurring Charge</u>
Channel Termination Per Termination		
Two-Wire	\$41.42	\$223.24
Four-Wire	\$59.65	\$223.24
Channel Mileage		
Facility, Per Mile	\$ 1.88	
Termination, per Termination	\$18.97	
Signaling Capability	\$14.42

WN U-6      SUBSTITUTE ORIGINAL SHEET NO. 21

WESTERN WAHAKIYAKUM COUNTY TELEPHONE COMPANY

SCHEDULE 1 (Continued)

ENHANCED 911 SERVICE (E911) (Continued)

CONDITIONS (Continued)

8 (Continued)

- (b) The distance-sensitive portion of such charges shall be determined on the basis of the number of whole or fractional airline miles (rounded upward to the nearest whole mile), as measured between the Company's serving central office and the point at which the Company's transport facilities connect, or are deemed to connect, with those of the connecting company participating in such transport; provided, however, that if such channels are routed from the Company's serving central office to an intermediate central office of the Company, the transport charge(s) shall be determined separately for each transport segment furnished by the Company and then aggregated, with transport between Company central offices comprising a segment.
  - (c) The rates and charges of such other LEC(s) will apply in addition to those of the Company.
  - (d) Meetpoint billing percentages will not be applied to the Company's rates and charges for purposes of determining transport charges applicable to E911 Service. The distance-sensitive portion of 911 transport charges for 911 channels that transit the Company's facilities shall be determined on a similar basis, measuring from the point at which such channels enter, or are deemed to enter, the Company's transport facilities to the Company's intermediate wire center, and from there to the point at which such channels leave, or are deemed to leave, the Company's transport facilities and enter the transport facilities of a connecting company participating in such transport.
9. Where the necessary dedicated channels are ordered by the 911 Customer from an IXC, the rates and charges of that IXC shall apply, and the Company shall be paid by the IXC for the Company's provisioning of such channels at the rates and charges set forth in the Company's Washington intrastate Special Access tariffs, applied in the manner described in Condition 8 of this Schedule and with the applicable exceptions set forth in said Condition 8.
