RE: **Letter Requesting Enforcement Action** (Docket D-200036)

Dear Ms. Brown:

The Washington Utilities and Transportation Commission (Commission) formally requests that the Attorney General's Office (AGO) institute enforcement action against Snohomish County PUD (SnoPUD) for violations of Revised Code of Washington (RCW) 19.122.030(3)(a) that occurred when SnoPUD failed to provide reasonably accurate information as to the location of its underground utilities within two business days of receipt of an excavator's utility locate request.

On January 9, 2020, the Washington State Dig Law Safety Committee (Safety Committee) heard complaints for case 19-096 against SnoPUD regarding alleged violations of RCW 19.122 that occurred on October 3, 2019. The Safety Committee determined that SnoPUD committed one violation of RCW 19.122.030(3)(a) as follows:

On September 30, 2019, Austin's Lend-A-Hand submitted utility locate request #19432412 for 242 Tillicum Way, Camano Island, Washington. On October 3, 2019, Austin's Lend-A-Hand arrived at the jobsite and discovered an absence of SnoPUD underground utility markings on the ground within the identified excavation area. Austin's Lend-A-Hand contacted SnoPUD's contracted locator, who was dispatched to the site and subsequently located and marked additional underground utilities within the excavation area. Photographs and documentation submitted to the Safety Committee by both parties support the allegation.

Commission staff (Staff) investigated these incidents and agrees with the Safety Committee's determination, concluding that SnoPUD did not provide reasonably accurate information to the excavator in regards to the location of its underground utilities within two business days.

According to RCW 19.122.140(2), the Commission lacks jurisdiction to issue a penalty in this matter. RCW 19.122.140(2) states that:

Respect. Professionalism. Integrity. Accountability.

Ms. Sally Brown

If . . . a violation has likely been committed by a person who is not subject to regulation by the commission, and in which the underground facility involved is also not subject to regulation by the commission, the commission may refer the matter to the attorney general for enforcement of a civil penalty . . .

SnoPUD is not subject to regulation by the Commission. The underground facilities in question belong to SnoPUD, and SnoPUD committed the violation for which the penalty was recommended. Therefore, the Commission officially requests that the AGO pursue enforcement action against SnoPUD for the violations listed above. Staff is available to assist as required in this matter.

Please contact Sean Mayo, Pipeline Safety Director, at (360) 664-1219 if you have any questions.

Sincerely,

MARK L. JOHNSON
Executive Director and Secretary
