Washington Water Service Company

For Commission's Receipt Stamp

**SCHEDULE NO. 8**  
**SERVICE CONNECTION CHARGE**

Available

Within the limits of all Water Service Areas and at Utility's option and capability to maintain Department of Health standards of quantity and quality.

Applicable

Applies to all new applicants for properties not currently served and within the Commission Service Area (as defined in the tariff) for the Utility only when surplus system capacity is available and a direct connection can be made to an existing main that has adequate hydraulic capacity.

Conditions

1. A charge will be made the first time a customer's service pipe is connected to the Utility's main. The charge (T)  
for a larger connection will be the cost of labor and materials. A meter will be furnished, installed and (D)  
maintained by the Utility without direct cost to the customer.
2. The Utility owns and maintains all materials involved in making a service connection.
3. The service connection charge must be paid before installation.
4. In addition, when it is necessary to bore under or trench through an existing road beyond what is required of (T)  
a tap and push, the cost of boring or trenching will be in addition to the Service Connection Charge. (T)
5. Meter will be placed in a suitable meter box located at the customer's property line,  
except when this is not practicable. The meter will be installed upon the customer's  
premises in some convenient location approved by the Utility where the meter will at  
all times be accessible for reading, inspection and testing. (See Rules 7, 8 & 9)
6. Service Connections will be installed within 15 days from payment, unless prior  
arrangements in writing are agreed upon by both the customer and the Utility.
