Re: T-Mobile West LLC – Annual Petition for Certification as an Eligible Telecommunications Carrier

Dear Mr. Johnson:

Enclosed for filing please find Confidential and Redacted versions of T-Mobile West LLC's ("T-Mobile") Annual Petition for Certification as an Eligible Telecommunications Carrier.

The Application contains confidential information in Exhibits B, D, E, H & I that is exempt from public inspection, examination and copying pursuant to WAC 480-07-160(2) and RCW 42.56.270(11), namely proprietary data and trade secrets concerning complaints, outages, and T-Mobile's investment in its network. This competitively sensitive information would harm T-Mobile's business with respect to its competitors if disclosed. That information is redacted in the nonconfidential version of T-Mobile's filing, and T-Mobile has requested confidential treatment for the information from the FCC.

Please feel free to contact me at (425) 383-5532 or teri.ohata@t-mobile.com should you have any questions.

Sincerely,

Teri Y. Ohta
National Director, State Regulatory Affairs
