Whitney Toyoji  
Costco Wholesale  
999 Lake Drive  
Issaquah, WA 98027

To whom it may concern,

Costco Wholesale is working to increase stability within our voice network by leveraging two providers to support calls to our US warehouses and depots. To accomplish this, we are setting up the ability to remote call forward our DID's from our primary provider, to our secondary provider, Verizon.

To accomplish this project, Costco has placed an order with Verizon Business for 1 block of 5,000 contiguous numbers to be put in service by October 2020. Costco requests the NPA/NXX be local to our Quincy Datacenter at 2200 M ST NE, QUINCY, WA 98848-9807. There are no other restrictions for these TN's. If Verizon is not able to acquire these numbers for Costco Wholesale, it will impact our ability to implement our desired redundancy plan and adversely affect our ability to support calls to our locations.

The point of contact for this request is:

Heidi Guerrero  
(425) 427-7047
