Hi Mr. Remfrey:

I have been exposed twice from customers and quarantining for 14 days because it.

As mentioned before, I am at a very high risk for death if I contract COVID-19.

I am a diabetic, have high blood pressure, and have asthma.

The risk is just not worth it for me.

With that being said, I am going to cancel my UTC Permit effective as soon as I turn in my Cancellation Form.

I truly appreciate the opportunity that UTC has given me, and I look forward to working with UTC in the future.

Thank you.

Acme Moving,

A few weeks ago you inquired about reinstating your permit and send the wrong application form. I sent you a copy of the correct form but have not gotten any response. Are you interested in reinstating your permit at this time?
