Re: Tariff WN U-28, Electric Service – WA Renewable Energy Credit Revenue Mechanism

Dear Mr. Johnson:

Attached for electronic filing with the Commission is the following tariff sheet proposed to be effective July 1, 2021:

Sixth Revision Sheet 98 Canceling Fifth Revision Sheet 98

The proposed tariff sheet reflects an electric rate adjustment to decrease the present rebate customers are receiving related to Renewable Energy Credits (“RECs”). In Docket Nos. UE-140188 and UG-140189, the Settlement Stipulation approved by the Commission in Order No. 05 required Avista to file an adjustment to the REC Revenue rebate on or before April 1, 2016, and each year thereafter, to reflect both the under or over amortized balance from the current rebate as well as the projected net REC revenues for the following July – June time period.¹ The new rates would go into effect July 1 for a twelve-month period.

As provided in the workpapers accompanying this filing, approximately \$0.2 million is the expected rebate balance remaining from the July 2020 through June 2021 time period, and the projected REC revenues (rebate direction) for the July 2021 through June 2022 time period is \$0.7 million, for a total rebate effective July 1, 2021 of approximately \$0.9 million. The current rebate in effect is designed to rebate approximately \$1.8 million.

The net effect of the new and expiring REC rebate is a decreased benefit (i.e., rate increase) to electric customers of approximately \$0.9 million, or 0.2%. The table below illustrates the impact by rate schedule:

¹ See Docket Nos. UE-140188 and UG-140189, Settlement Stipulation Appendix 2, p. 4.

UTIL. AND TRANSP.
COMMISSION

Schedule No.	Rate Schedule	Change in Billed Revenue
1/2	Residential	0.2%
11/12	General Service Schedule	0.1%
21/22	Large General Service Schedule	0.2%
25	Ext. Lg General Service Schedule	0.2%
31/32	Pumping Service Schedule	0.2%
41-48	Street and Area Lights	0.0%
Overall		0.2%

The change in the rate credit has no effect on Avista's earnings. Enclosed is a set of workpapers which shows the derivation of the proposed per kilowatt-hour rate credit proposed to be effective for a twelve-month period beginning July 1, 2021.

The average residential customer using 914 kWhs per month will see an increase of \$0.16 per month, or approximately 0.2%. The present bill for 914 kWhs is \$89.80 while the proposed bill is \$89.96. The actual bill change will vary based on customer usage.

Information contained in this filing is confidential in nature and is filed under seal, per WAC 480-07-160 along with a redacted version. In accordance with the requirements of WAC 480-100-103, attached to this filing is a draft notice to customers, which the Company will provide through a bill insert, during the May 2021 bill cycle.

Please direct any questions regarding this filing to Marcus Garbarino at (509) 495-2567.

Sincerely,

/S/ Patrick D. Ehrbar
