COMMISSION

To whom it may concern,

In response to my violations that I received from my first safety inspection, I would like to admit full responsibility and ask for a reduction in penalties. Having this being my first inspection I wasn't prepared at all. I didn't realize the importance of each penalty I received while I was operating, so I brushed it off. After speaking with inspector Edward a week before my inspection and having him explain the importance of my medical certificate and annual inspection, I immediately took action and retrieved both a few days later. I'm now in full compliance with the UTC, and have come up with a safety management plan to ensure that my next inspection will pass with flying colors. I ask that you please consider a lower penalty amount as this is my first inspection.

Thank you,

David Lu
