Schedule 140 provides that PSE must file revisions on or prior to April 15 for rates to be effective on May 1 of each year. Consistent with the timing of prior filings, this initial filing is being made a minimum of 30 days prior to the effective date with a preliminary estimate of the current year's taxes. In order to reflect final bills received by PSE for property taxes, a subsequent filing will be made as close to April 15 as possible that will update the estimates to actual amounts. The timing of the subsequent filing depends on when PSE receives its property tax bills from billing counties.

This proposal represents a \$913,315 decrease in the property tax revenue requirement from the previous year. This change results in an overall average decrease of 0.06 percent in customer bills. However, special contracts would see an overall average increase of 1.58 percent. The typical residential customer using 800 kWh per month would experience a \$0.03 decrease in their monthly bill or 0.03 percent.

Consistent with WAC 480-100-194, published notice informing customers of proposed rate increases are to be provided at least thirty days prior to their effective dates. This is prior to the date when the actual amount of the property taxes will be known, as discussed above. PSE will therefore include notice of the preliminary rates in this filing, as part of its notice regarding all filings with May 1, 2022 requested effective dates. PSE will publish a notice consistent with WAC 480-100-194(2).

The tariff sheets described herein reflect issue dates of March 31, 2022, and effective dates of May 1, 2022. Posting of proposed tariff changes, as required by WAC 480-100-193, is being made by posting the proposed tariff sheets on the PSE web site coincident with the date of this transmittal letter.
