Tariff No. 250Revised Page No. 6Company Name/Permit Number: Murrey's Disposal Co., Inc. dba Olympic Disposal G-9  
Registered Trade Name(s)Item 10 - Application of Rates -- General

Rates named in this tariff cover the collection, transportation, and disposal of solid waste. When specifically referred to, rates also cover the collection and transportation of recyclable materials and/or yardwaste.

Title 81.77 of the Revised Code of Washington (RCW) and Chapter 480-70 of the Washington Administrative Code (WAC) govern operations of solid waste collection companies and the tariffs companies must file with the Washington Utilities and Transportation Commission (WUTC).

Unless exceptions are shown, all materials must be placed on the same level as the streets or alleys.

The company may charge additional amounts for disposal fees only when specifically stated in the tariff and separately shown on customer bills.

Item 15 -- Holiday Pickup -- Regularly Scheduled Service

When a pickup is missed due to the company's observance of a holiday, the company will provide service at no additional cost to the customer on an alternate day.

A list of the holidays the company observes is shown in Item 60.

For application of rates in this tariff, the company defines alternate day to mean the following:

One day early or one day late except when alternative day falls on Sunday in which Saturday or Tuesday will be the alternate day observed.

Item 16 -- Change in Pickup Schedule

When a company changes the pick-up date for its certificate area, or a portion of its certificate area, the company must notify all customers in the affected area of that change.

Notice must be made at least seven days before implementation of a new pickup schedule and may be made via mail, personal contact, or by a notice being affixed to the customer's solid waste receptacle.

Item 30 -- Limitations of Service-Continued

**6. Missed service due to a labor disruption, which causes work stoppages that prevent or limit a company from collecting solid waste. A company must:**

- a. Immediately inform the commission's regulatory services and consumer protection staff when a labor disruption is imminent by email at: servicedisruption@utc.wa.gov. This email must be used for all communications regarding the labor disruption.
- b. Provide daily email reports to the commission regarding the company's progress toward meeting full service requirements.
- c. Develop and implement a customer outreach plan regarding the labor disruption, what to expect, and how to contact the commission.
- d. Provide the commission's regulatory services and consumer protection staff with a copy of the customer outreach plan by email.
- e. Provide an email that includes a schedule and plan for communicating with local governments and the media.
- f. Use all reasonable, practicable means to resume regularly-scheduled service to all customers within five business days, not including the first day of the labor disruption. Resuming services within five business days is presumptively reasonable and practicable; provided, however, that under specific circumstances arising at the time of a labor disruption, the presumption may be rebutted by evidence that the company acted contrary to the public interest and unreasonably delayed resumption of collection services. Relevant factors may include the company's resources; the circumstances of the labor disruption; the amount of time, if any, that the company had to prepare for the labor disruption; the company's execution of any contingency plan, if any; organization and training of any replacement workers; ambulatory picketing that might delay restoration of service; and workplace safety issues and coordination with local government agencies that may affect overall public safety.
- g. Collect all accumulated solid waste at the customer's next regularly-scheduled service date after service resumes as set forth in subsection (f) above. The company will not charge for extra waste set out in addition to customers' normal receptacle(s) if the amount of extra waste does not exceed the amount that reasonably would be expected to accumulate due to missed service.
- h. The company is not obligated to extend credit to missed customers who do not receive service if the company collects the customers' accumulated solid waste as required in subsection (g) above or if the company did not unreasonably delay the restoration of service during the five business day grace period. If the company does not collect all of a customer's accumulated solid waste as required in subsection (g) above, or if the company unreasonably delayed the restoration of service during the five business day grace period, the company is required to give a credit to the customer, proportionate to the customer's monthly service charge, for all missed services and for each subsequent missed service until normal service is restored.
- i. When the labor disruption has been settled, notify the commission's regulatory services and consumer

<u>Item 30 -- Limitations of Service-Continued</u>	
<b>7. Missed service due to a declared public health emergency</b>	
<p>a. <u>Upon declaration of a public health emergency, or upon direction by a federal, state, or local authority, solid waste collection companies may alter services for the health and safety of the general public, its customers and its employees. This may include but is not limited to the altering of normal collection and administrative services.</u></p> <p>b. <u>The company shall provide notice to the Commission when services have been altered. The company shall take reasonable actions to notify impacted customers of the situation. The company will maintain continuity of service throughout a public health emergency to the greatest extent practicable while conforming to the emergency declaration. The company will return to normal operations as soon as is reasonable given the circumstances of the emergency.</u></p> <p>c. <u>All accumulated solid waste will be collected by the company on the customer's next regularly-scheduled service date following the resumption of normal operations. The company will not charge for extra waste set out in addition to customer's normal receptacle(s) if the amount of extra waste does not exceed the amount that reasonably would be expected to accumulate due to the missed service.</u></p>	
<b>8. Definitions:</b>	
<p>a. "Reasonably would be expected to accumulate due to missed service" means, at a minimum, the amount of solid waste represented by the number of missed service(s) multiplied by the customer's subscribed service level. For example, if the company misses two services for a customer who subscribes to one 96-gallon toter, the amount would be the equivalent of 192 gallons (2 services x 96 gallons subscription per service).</p> <p>b. "Next scheduled service date" – this date is defined by each customer's subscription service.</p> <p>i. Example 1: A residential customer subscribes to weekly service that the company schedules for every Wednesday. If the company does not provide service on Wednesday, November 14, the next scheduled service date would be Wednesday, November 21.</p> <p>ii. Example 2: A commercial customer subscribes to daily service. If the company does not provide service on Wednesday, November 14, the next scheduled service date would be Thursday, November 15.</p> <p>iii. Example 3: A residential customer subscribes to every-other-week recycling service scheduled for Wednesday, November 14. If the company does not provide service on Wednesday, November 14, the next scheduled service date would be Wednesday, November 28.</p> <p>c. Example of how to calculate a credit: Monthly residential service rates are set based on 4.33 services per month. If the company misses one service, the credit is calculated as: .231 (1 missed service divided by 4.33 services per month) multiplied by the service-related component of the monthly rate (excluding disposal and processing costs); provided that the credit for any specific month does not exceed the full rate per month. Any customer credits for missed recycling services will include the recycling commodity credit.</p>

**Availability.** A company must maintain a supply of all sizes of containers and drop boxes for which rates are listed in this tariff. If a customer requests a container or drop box of a size listed in the company's tariff, and the company is unable to provide the requested size within 7 days of the customer request, the customer must be notified in writing or by telephone.

**Alternate-sized containers and/or drop boxes.** If the company cannot provide the requested-sized container or drop box (and that size is listed in the company's tariff), the company must provide alternate-sized containers or drop boxes, sufficient to meet the capacity originally requested by the customer at the same rates as would have applied for the requested container or drop box.

**Disposal fees due on alternate-sized drop boxes.** If the company provides alternate-sized drop boxes, the customer is responsible for all lawfully applicable disposal fees resulting from the use of the alternate drop boxes.

**Rates on partially-filled containers and/or drop boxes.** Full pickup and rental rates apply regardless of the amount of waste material in the container or drop box at pickup time.

**Rates for compacted materials.** Rates for compacted material apply only when the material has been compacted before its pickup by the company.

**Rates for loose material.** Loose material dumped into the company's packer truck is subject to the rates for non-compacted material even though the material may be compacted later in the packer truck.

**Permanent and temporary service.** The following rules apply:

(a) If a customer requests a container or drop box for less than 90 days, the customer will be billed at temporary service rates.

(b) If a temporary service customer notifies the company that it has decided to retain the container or drop box for more than 90 days, permanent service rates will be assessed from the 91st day until the end of the period the customer retains the container or drop box.

(c) If a customer requests a container or drop box for more than 90 days, the customer will be billed under permanent rates. If that customer cancels service before the end of the 90-day period, the company may not rebill the customer at temporary service rates. The intent of the customer at the time service was requested applies.
