

# **Computer 5, Inc. d/b/a/ LocalTel Communications (“hereinafter referred to as LocalTel Communications”) (SAC 529026) Annual Eligible Telecommunications Carrier Report for 2024 Annual Plan**

LocalTel Communications, study area code (“SAC”) 529026,<sup>1</sup> submits its Annual Eligible Telecommunications Carrier Report for 2024 (“2024 Report”) and Annual Plan for 2024 in accordance with WAC 480-123-060 to WAC 480-123-080.

## **I. LOCALTEL COMMUNICATIONS ETC REPORT FOR 2024**

### **A. Annual Certification of Eligible Telecommunications Carriers**

With this filing LocalTel Communications requests continued certification as an eligible telecommunications carrier (“ETC”) in Washington. In accordance with WAC 480-123-060, LocalTel Communications **Exhibit “A”** contains the certification that all federal high-cost universal service support was used in the preceding calendar year (2023) and will be used in the coming calendar year’s (2024-2029) for the “provision, maintenance, and upgrading of facilities and services for which the support is intended.”

### **B. Report as Required by WAC 480-123-070 for Calendar Year 2023**

Computer 5, Inc. d/b/a LocalTel Communications, used federal high-cost CAF II support funds to purchase equipment, build towers, install antennas, and backhauls predominately in Lincoln, Adams, Douglas, Chelan, and Grant Counties in Washington State. These towers allowed Computer 5 to bring its wireless “SkyFi” network closer to our CAF II targeted locations in the five counties mentioned herein. Computer 5 will continue to upgrade its backhauls and older tower sites, and at the same time continues targeting new potential tower sites to bring our network services even closer to CAF II target areas. Computer 5, in 2023 adopted and integrated a successful CAFII performance testing strategy, meeting its 2023 Testing obligations.

Computer 5 Inc. d/b/a LocalTel Communications used federal high-cost RDOF support funds to plan for, engineer and implement some of the necessary network upgrades to meet the RDOF requirements, and used support funds for the engineering, provisioning and maintenance of customer pass-byes and acquisitions.

#### **1. Report on use of federal universal service funds and benefits to consumers (WAC 480-123-160 (1), WAC 480-123- 070(1)(a) and (b))**

Data management has resulted in the input and labeling of roughly 1800 potential CAF II locations into our database and mapping systems. Targeted CAF II locations are analyzed in conjunction with existing and proposed tower sites using path analysis and strength of signal indicators to place tower locations to be developed. Upgrades and expansion of the LocalTel wireless network, known as “SkyFi” is bringing fixed wireless internet service, voice service and limited streaming video services to rural area consumers in Washington State, including CAF II locations and adjacent properties, at speeds and service levels these areas have not been able to experience previously. LocalTel has made considerable investments in CBRS licenses and equipment and continues to deploy and test different CBRS equipment to cover and provide service to CAF II areas and previously unreachable areas. For details on how CAF II funds were used in 2023 see attached **Confidential Exhibit “B”**. LocalTel continues to offer voice and broadband services in urban areas at rates that are less than benchmarked rates for such services as certified in company filings of Form 481 with Universal Service Administration Company, which thereby benefits Washington State consumers. In 2023, LocalTel continued its reporting with USAC by completing the uploading and certification of 374 new CAF II location pass-byes bring our total to 1171 certified locations, meeting our required 60% completion requirement. The verification process for the uploaded 374 locations with USAC is in progress but is currently not completed and approved by USAC. LocalTel is on track to continue to meet its CAF II milestones and expects to file an additional 20% by end of year 2024.

Data management and analysis continues in Chelan, Douglas, and Grant Counties to design and engineer the best use of RDOF funds for the meeting of RDOF pass-byes, for customer acquisitions and to measure the impact on LocalTel's network. Aid in Construction funding is being implemented with funding to the county PUDs to deliver RDOF required quality High Speed internet to rural RDOF locations. Computer 5 expects to meet its optional 20% RDOF location pass-by filing by the end of 2024. For details in how RDOF funds were used in 2023, see attached **Confidential Exhibit "C"**.

## **2. Local Service Outage Reports (WAC 480-123-070(2))**

NONE. LocalTel had no service outages of at least 30 minutes in duration which may have affected:

- (i) Ten percent of the LocalTel end users
- (ii) A 911 special Facility

## **3. Report on failure to provide service (WAC 480-123-070(3))**

LocalTel Communications had no (0) unfulfilled requests for service in calendar year 2023.

## **4. Report on complaints per one thousand connections (WAC 480-123-070(4))**

LocalTel Communications reports that during calendar year 2023, the Company did not receive from the Federal Communications Commission or the Consumer Protection Division of the Office of Attorney General of the State of Washington any complaints against the Company concerning the services provided to customers that are either subject to the regulatory jurisdiction of the Washington Utilities and Transportation Commission or among the services supported by the federal high-cost fund.

## **5. Compliance with applicable service quality standards (WAC 480-123-070(5))**

For wireline carriers the rule requires a commitment to comply with applicable consumer protection and service standards of chapter 480-120 WAC. Included in **Exhibit "A"** is LocalTel Communications certification of substantial compliance with this requirement.

## **6. Certification of the ability to function in emergency situations (WAC 480-123-070(6))**

To comply with this requirement, an ETC must certify that it has adhered to the requirements in WAC 480-123-030(1)(g) and outlined in WAC 480-120-411. Per WAC 480-123-030(1)(g) LocalTel Communications central office has permanently installed emergency power facilities. LocalTel Communications central office is equipped with an automatic start generator with an automatic transfer switch. In addition, LocalTel Communications has six hours of reserve battery capacity. The required minimum for central offices equipped with automatic start generators is three hours of reserve battery. LocalTel has redundant Network Equipment in key locations, with redundant routing in place, redundant backhauled to most tower sites and battery backup at key tower sites and at network edge locations.

## **7. Advertising certification, including advertisements on Indian reservations (WAC 480-123-070(7)).**

The certification for this section is included in **Exhibit "A"**.

LocalTel Communications is committed to publicizing the availability of its Lifeline and ACP service in a manner that is reasonably designed to reach those likely to qualify for the services. In that regard, during 2023 LocalTel Communications engaged in the activities listed below to support its Lifeline Service and ACP Service programs.

- LocalTel Customer Service and Billing Representatives are trained to assist customers who inquire about the Lifeline Program or demonstrate a need for financial assistance.
- Links to information about the Lifeline Program and National Verifier are on the LocalTel.com website. **Exhibit #3**
- Notice of Lifeline Benefit availability included on both English and Spanish flyers mailed to residences in the LocalTel Communications service area. **Exhibit #4**
- Notice of Lifeline Availability is included in revolving LocalTel reader board messages in two counties.

LocalTel Communications service area does not include Indian Reservations/Tribal Lands.

## **II. Annual Plan for Universal Service Support Expenditures as Required by WAC 480-123-080**

**Confidential Exhibit "D"** contains LocalTel Communications projected receipt of Federal CAF II High-Cost support in Fiscal Year 2025 and its plans to utilize such support in said 2025. Planned network expansion in 2025 will further extend the LocalTel SkyFi network to reach an additional 200 new previously unserved locations with high-speed Wireless internet.

**Confidential Exhibit "E"** contains LocalTel Communications projected receipt of Federal RDOF High-Cost support in Fiscal year 2025 and its plans to utilize such support in said 2025. Planned network expansion in 2025 will further extend LocalTel' s high-speed Gigabyte fiber Internet offering across multiple counties, thereby serving over 1000 previously unserved locations in said counties.

## **III. Map of LocalTel's Tower sites as Required by WAC 480-123-080(3)**

- 1) File is too large to send. Contact LocalTel for personalized update of our Tower mapping systems.

## Exhibit "A"

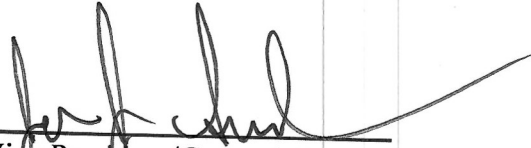

**Computer 5 Inc. A Washington Corporation  
d/b/a LocalTel Communications  
2024 ANNUAL ETC AFFIDAVIT AND CERTIFICATION**

I, John J Seabeck, being of lawful age and duly sworn, state that I serve as Vice President and General Manager for Computer 5 Inc. d/b/a/ LocalTel Communications.

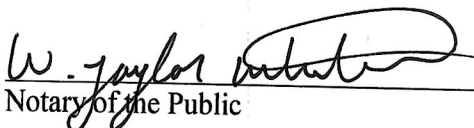

I certify to the Washington Utilities and Transportation Commission ("Commission") under penalty of perjury under the laws of the State of Washington that the following is true and correct to the best of my knowledge:

1. The Commission designated LocalTel Communications as an eligible telecommunications carrier ("ETC") in certain areas in Washington by Order dated January 31, 2019 in Docket UT-180763.
2. Federal high-cost CAF II support received by LocalTel Communications was used in 2023 and will also be used in 2024 & 2025 only for the provision, maintenance, and upgrading of the facilities and services to deliver high speed broadband internet access for which the support is intended in accordance with WAC 480-123-060.
3. Federal high-cost RDOF support received by LocalTel Communications was used in 2023 and will also be used in 2024 & 2025 only for the provision, maintenance, and upgrading of the facilities and services to deliver high speed broadband internet access for which the support is intended in accordance with WAC 480-123-060.
4. During calendar year 2023, LocalTel Communications provided high speed wireless Internet services to areas identified and reported on the USAC HUBB meeting its 2023 CAFII milestone requirements. LocalTel has provided detailed information on the use of funds as detailed in Confidential Exhibit "B" herein, in accordance with WAC 480-123-070.
5. During calendar year 2023, LocalTel Communications met the applicable service quality standards and consumer protection rules by complying substantially with the consumer protection and service standards of chapter 480-120 WAC as required by WAC 480-123-070(5).
6. During calendar year 2023, LocalTel Communications had the ability to function in an emergency situation and meet the applicable requirements as required by WAC 480-123-070(6) as described in the **LocalTel Communications Annual ETC Report for 2024 Annual Plan**.

7. During calendar year 2023, LocalTel Communications **did** publicize the availability of its Lifeline Service in a manner reasonably designed to reach those likely to qualify for service in accordance with WAC 480-123-070(7). Therefore, LocalTel Communications did service Lifeline Program subscribers during 2023.

  
Vice President/General Manager  
Computer 5 Inc. d/b/a

***Exhibit #1 Terms & Conditions (inc. Lifeline addendum)***

# TERMS AND CONDITIONS OF SERVICE

*This Agreement was last modified on October 3, 2019.*

**By utilization of said Telecommunication services, the customer hereby agrees to the terms and conditions contained herein and as amended from time to time.**

## **Monthly Service**

LocalTel will bill each customer in advance, monthly, for the specific services that the customer has subscribed to. Customer hereby agrees to pay for said services according to the terms and conditions contained herein. LocalTel will prorate charges for services when services are provided for more or less than the actual billing period.

## **Payment**

All monthly statements for communications services provided or to be provided, are due and pay-able by the due date shown on the monthly statement. Payments may be made by cash, check, credit card, automatic draft and other approved electronic means such as automatic payment by credit and debit cards.

## **Late Payment Charge**

Statements that remain unpaid after the due date shown on the statement, will be considered delinquent and subject to a late payment charge. A late payment charge will be assessed on accounts in which a payment has not been received by the due date shown on your statement. For residential customers, a \$6.00 late payment charge or 1.5% of the past due or unpaid balance, whichever is greater, will be assessed on the account and added to the unpaid balance. Late payment charges will continue to accrue until such time as the account is paid in full or the account has been closed.

## **Insufficient Funds**

Checks or automatic drafts drawn on accounts with insufficient funds will activate a prompt customer notification, and LocalTel will charge a \$20.50 service fee for insufficient funds and returned checks. Automatic payments by credit or debit card which are declined will also activate a prompt customer notification, and LocalTel will charge a \$17.50 service fee.

## **Deposits**

Deposits may be required prior to opening an account. A minimum \$50 deposit for the first circuit of service (internet, television and/or phone) and \$25 charge for additional lines thereafter will be placed into an escrow account. Deposits may be made with cash, personal checks, money order, Visa, Discover, Master Card or American Express. Deposits may be removed from the trust account and applied against the customer's balance owing, should that account be scheduled for termination according to the terms contained herein in section titled Reason for Termination.

Deposits will be refunded at the end of one year, per customer request, if the account balance is current and the customer is considered a Premier LocalTel Customer. LocalTel Premier Customers are customers who maintain current account status, no late or missed payments, for a one year period. If account is not in premier status, the deposit will carry over to the following year, and thereafter until premier status is achieved.

## **Credit Check**

LocalTel observes the right to obtain a credit score from an accredited credit bureau to evaluate the potential risk of providing services to a customer. LocalTel does provide a pre-paid option for customers that would normally be denied service due to credit.

## **Service Requests**

## **Changes in Services**

Accounts must be current — no balances over 30 days old — prior to adding, moving or changing services.

Failure to pay for services received will result in suspension of services. Accounts may be at risk of suspension once the account becomes more than 7-days past due. A notice of Account Past Due will be sent via email and US mail prior to suspension.

**Services will be scheduled for suspension if payment is not received.**

**Any LocalTel customer account that becomes suspended will be subject to our account reactivation policies.**

#### Reactivation Requirements

In order to reactivate the account, the suspended customer will need to pay any and all past due balances with either cash, Credit card, Debit card, or money order. Reactivation fees will be charged to the account at the time payment is made.

Customers using Autopay will have a choice of setting up their automatic draft from their checking or savings account or an automatic draft against their credit or debit card.

#### Defaults

Defaults on an Autopay account caused by expired or declined credit cards or non-sufficient funds in the drafted account will be notified by phone, mail and/or email to rectify the situation before the account and services will become suspended. Once the account has reached the suspension stage, standard LocalTel credit policies regarding suspension and termination will take effect.

#### Termination

Terminated accounts will have all services removed and sent to billing for final statement billing. Customers that have signed a service contract and not completed the terms therein will be charged an early termination fee of \$69.00 per service. SkyFi customers that have not completed contract terms will be charged an early termination fee up to \$200.00. Customer will also be charged for unreturned equipment. This includes VoIP Modems, SkyFi Equipment, DTAs and Set Top Boxes.

#### Services Terminated

After seven business days from date of suspension, if a suspended account is not brought current, LocalTel may terminate services to the account. All underlying services will be disconnected to customers premises and LocalTel's termination process will commence. LocalTel will issue a final bill that reflects charges for services not yet billed along with credits for services that were billed in advance and not received upon termination. Deposits held in trust will be applied to the account balance at that time. If the account balance, after deposits have been applied, still shows a balance owing, your account will be turned over to Armada Corp. Collection Agency.

#### Changes to This Agreement

LocalTel Communications reserves the right to modify these Terms of Service at any time. We do so by posting and drawing attention to the updated terms on the Site. Your decision to continue to visit and make use of the Site after such changes have been made constitutes your formal acceptance of the new Terms of Service.

Therefore, we ask that you check and review this Agreement for such changes on an occasional basis. Should you not agree to any provision of this Agreement or any changes we make to this Agreement, we ask and advise that you do not use or continue to access the LocalTel Communications site immediately.

#### Contact Us

If you have any questions about this Agreement, please feel free to contact us [contact@localtel.com](mailto:contact@localtel.com).

# TERMS AND CONDITIONS - LIFELINE PROGRAM

***This Agreement was last modified on June 16, 2021.***

In addition to our regular Terms and Conditions of Service the following will apply to Lifeline Subscribers:

### **Lifeline Program Eligibility and Enrollment**

LocalTel relies on the Lifeline Program National Verifier to qualify and enroll consumers. Information about the program's eligibility requirements may be found at <https://www.lifelinesupport.org/lis/do-i-qualify/default.aspx>.

Lifeline Program Benefit is One-per-household. FCC12-11 states: We define "household" in a manner consistent with the definition used in the Low-Income Home Energy Assistance Program, as "*any individual or group of individuals who are living together at the same address as one economic unit*". For the purposes of this rule one economic unit consists of all adult individuals contributing to and sharing in the income and expenses of a household.

### **Subscriber Usage of Lifeline-supported Service**

Lifeline Program phone or Internet service must be used to remain in effect. Payment of monthly bill qualifies as usage. Lack of usage for 60 days may terminate Lifeline Program support. Subscriber is to notify LocalTel if services are no longer needed.

### **Long Distance / Toll Charges**

Subscriber is to notify LocalTel if Toll Limitation Service is desired. Otherwise, consumer will be liable for all long distance / toll charges accrued.

### **Bundled Services**

Lifeline Program support may be applied to Bundled Service Packages.

### **Plan selection**

Lifeline Program support may only be applied to services that meet or exceed the Lifeline Program minimum standards.

### Why Choose Us?

#### Location, Location, Location!

We are located here in North Central Washington. We live here, work here and are a part of the local community. Our ownership is local, growing up in the area, and we are committed to offering the best services and support for the residents and businesses we serve.

#### The Very Best In Technology

#### Competitive Pricing – No Gimmicks

#### Award Winning Local Support

### What Our Customers Say

“I’m just dropping you this note to express praise for your installation service personnel. We moved to Chelan in April of 2013 and have had 3 installations at the residences we have occupied (the last one is our new home). All have had different challenges that were met efficiently and courteously by the installation technicians. The last installation was explained every step of the way and we are very pleased with the results. We will certainly recommend LocalTel to all our friends... Cheers!”

**The EBB (Emergency Broadband Benefit) is being replaced  
by the more permanent Affordable Connectivity Program (ACP).**

December 28, 2021

Dear LocalTel EBB Subscriber,

As you know, the EBB (Emergency Broadband Benefit) Program was designed as a temporary federal program. EBB is being replaced by the more permanent Affordable Connectivity Program (ACP). **THIS TRANSITION WILL TAKE PLACE DECEMBER 31, 2021.** Most EBB subscribers will be automatically enrolled into the ACP. One exception is the 'loss of income' provision that existed for EBB. It is not a provision for eligibility under ACP. Subscribers who qualified under the 'loss of income' provision should submit a new application for ACP before 2/28/22.

As a legacy EBB subscriber there is a 60-day transition period during which you will receive the amount of your current EBB benefit. The transition period begins 12/31/21 and ends 2/28/22. The new maximum benefit under ACP is \$30 per month. **3/1/22 YOUR NEW BENEFIT AMOUNT WILL CHANGE TO A MAXIMUM OF \$30 PER MONTH.** If your monthly bill is \$30 or more your benefit will be \$30 per month. (Your ACP credit may not exceed your monthly internet bill.)

You may wish to change your internet plan or even change providers. To see our current plans and prices please visit our website at LocalTel.com or phone our office.

Your current internet service will remain unchanged unless you contact us. Beginning 3/1/22 your monthly charges will reflect the new ACP benefit. **PAY ATTENTION TO YOUR MONTHLY STATEMENT AS YOUR RECURRING BALANCE WILL CHANGE.**

If you are a Lifeline Program subscriber, you will continue to receive the \$9.25 per month Lifeline credit. If your monthly internet bill is \$39.25 per month or greater you will receive \$39.25 in combined credit. If less than \$39.25 per month the ACP amount will be adjusted because your monthly benefits may not exceed your monthly service charge.

Are you unfamiliar with the Lifeline program? For more information or to see if you qualify go to <https://www.lifelinesupport.org/> Many EBB subscribers also qualify for Lifeline.

Overall, the transition of EBB into ACP is good news. It will make internet service more affordable for qualified households far into the future.

**Crédito por mes en servicios  
de Internet o alquiler de equipos\***

**El EBB (Emergency Broadband Benefit) está siendo reemplazado por el Programa de Conectividad Asequible (ACP) más permanente.**

Diciembre 28, 2021

Estimado suscriptor de LocalTel EBB,

Como usted sabe, el Programa EBB (Emergency Broadband Benefit) fue diseñado como un programa federal temporal. EBB está siendo reemplazado por el Programa de Conectividad Asequible (ACP) más permanente. **ESTA TRANSICIÓN SE TOMARA ACABO EL 31 DE DICIEMBRE DE 2021** La mayoría de los suscriptores de EBB se inscribirán automáticamente en el ACP. Una excepción es la disposición de "pérdida de ingresos" que existía para EBB. No es una disposición para la elegibilidad bajo ACP. Los abonados que reúnan los requisitos previstos en la disposición sobre «pérdida de ingresos» deben presentar una nueva solicitud de ACP.

Como suscriptor heredado de EBB, hay un período de transición de 60 días durante el cual recibirá la cantidad de su beneficio EBB actual. El período de transición comienza el 31/12/21 y termina el 28/2/22. El nuevo beneficio máximo bajo ACP es de \$ 30 por mes. **1/3/22 SU NUEVO MONTO DE BENEFICIO CAMBIARÁ A UN MÁXIMO DE \$30 POR MES.** Si su factura mensual es de \$30 o más, su beneficio será de \$30 por mes. (Su crédito ACP no puede exceder su factura mensual de Internet).

Es posible que desear cambiar su plan de Internet o incluso cambiar de proveedor. Para ver nuestros planes y precios actuales, visite nuestro sitio web en LocalTel.com o llame a nuestra oficina. **PRESTE ATENCIÓN A SU ESTADO DE CUENTA MENSUAL YA QUE SU SALDO OCCURRENTE CAMBIARÁ.**

Si usted es un suscriptor del Programa Lifeline, continuará recibiendo el crédito Lifeline de \$9.25 por mes. Si su factura mensual de Internet es de \$ 39.25 por mes o más, recibirá \$ 39.25 en crédito combinado. Si es inferior a \$39.25 por mes, el monto de ACP se ajustará porque sus beneficios mensuales no pueden exceder su cargo mensual por servicio.

¿No está familiarizado con el programa Lifeline? Para obtener más información o para ver si califica, vaya a <https://www.lifelinesupport.org/>. Muchos suscriptores de EBB también califican para Lifeline.

En general, la transición del EBB a ACP es una buena noticia. Hará que el servicio de Internet sea más asequible para los hogares calificados en el futuro.
