Re: The Energy Project's Comments on PacifiCorp's Revisions to
Schedule 114, Docket UE-240888

Dear Jeff Killip:

The Energy Project supports PacifiCorp's proposal to modify its low-income energy efficiency program, commonly known as weatherization, by adding a measure for ducted heat pumps. TEP believes that these changes will enable the low-income energy efficiency program to serve more customers and provide more savings.

The Energy Project thanks PacifiCorp for working collaboratively with its Community Action Agencies to propose this change, which will overcome barriers to serve this hard-to-reach population.

Very truly yours,
/s/Yochanan Zakai
