Re: Sunrise Disposal, Inc.- G-201, Rate Evaluation

Jeff Killip, Executive Director and Secretary

On behalf of Sunrise Disposal, Inc.- G-201, I am filing certain revised tariff pages and other documents requesting a rate increase effective February 1, 2025. This filing is necessitated by overall inflationary increases since our last rate evaluation was done in 2008.

If this filing is approved by the Commission, the hauler's overall revenue will increase approximately 49.76%, or \$70,814.00. The revenue breakdown is:

	Gross Revenue Increase	Approximate Customer Percent Change
Residential	\$40,364	49.76%
Commercial	\$30,450	49.76%
Total	\$70,814	49.76%

Included with this filing is an Excel workbook titled [Sunrise Disposal SW LG 11-5-24.xlsx] which is a disposal workbook previously furnished by staff. This workbook has rate calculations, customer counts, price-outs both current and proposed.

Continued

Revised tariff pages are included with this filing in an Excel workbook titled [Sunrise Disposal Inc, Tariff 11-5-24.xlsx]. If these rates are approved by the Washington Utilities and Transportation Commission they will become effective February 1, 2025. Affected customers will receive notice of the change on the first billing reflecting the revision to rates under WAC 480-70-271(2)(a)(iii).

Unfortunately, at the current rates we have been taking a significant loss in our regulated area. Our rates were unchanged for many years as we want to provide the best value to customers. As prices for fuel and equipment rose dramatically over the last five years we simply did not keep up. You may notice, even with the substantial increase our rates are still lower than that of abutting tariffs.

Respectfully,
