Subject: Hearing will convene Monday as ascheduled in TC-111446, TC-111643, and TC-111619

Importance: High

To All Parties:

I have heard from the other three parties on the request for a continuance made by Excalibur Limousine LLC. Two parties have objected and one provided evidence of the hardship and expense it would cause. In addition, at this late date there would be hardship and expense for the UTC to continue this matter. It is my intent to send out an official notice next week denying the request for a continuance.

The hearing will begin as scheduled, at 9:30 AM on Monday, January 30, 2012.

Administrative Law Judge

Staff takes no position.

I am not able to propose dates at this time should you decide to continue the hearing. I can suggest, however, that if you do reschedule the hearing, that it be scheduled for a Wednesday and a Thursday in a week without an Open Meeting.

TO ALL PARTIES IN THE ABOVE MATTERS SCHEDULED FOR A HEARING ON MONDAY, JANUARY 30, 2012,
AT 9:30 AM:

Mr. Williams has requested a continuance, below. I must hear back from you before 5:00 PM today as to whether or not you have an objection to granting Mr. Williams' request for a continuance. If you do not object, I will also need to know dates that will work for each of you as the regulations (WAC 480-07-385 require a continuance to a date certain.

Thank you for your immediate attention to this request.

Martin Lovinger
Administrative Law Judge

Mr. Williams:

In response to your other question, if you are going to testify, you should send notice to all the parties that you are a witness for Excalibur. This will allow them to plan accordingly for the hearing.

Your Honor,

With the submission of evidence just coming last yesterday and the hearing scheduled for Monday I am left without the time unnecessary to provide evidence which refutes some of the evidence submitted at the last minute. I have attempted to get ahold of David Gomez, with the UTC, to ask questions but have not yet heard back. And being a Friday afternoon it is like that he (and yourself) may already be gone.

Is it possible to have a continuance granted for this hearing? I'm afraid I don't have a lawyer to answer this question for me currently but, in light of the amount of evidence submitted, will need time to get one and argue on my behalf.

I appreciate your time on this,
Kevin Williams
