[EXTERNAL]

This is feedback with regards to PSE rates increase, similar to many of other public feedback, I am against this rate hike requested by PSE therefore I'd like to encourage UTC to vote down this increase due to the following reasons:

1. Pandemic year
2. Public is suffering setback due to economic conditions
3. PSE does not have a Lean program in place to contain costs
4. PSE lack of investment in Clean energy such as Hydro or consideration to nuclear energy

Please take this feedback and economic impact due to pandemic into consideration and disapprove the rate increases.

Thx.
T.S. Mann
