Subject: PSE Rate Increase Docket UE-200980

[EXTERNAL]

Please vote no on the PSE rate increase. My bill went up a significant amount from their last increase and I only heat my house in the 60's, we've added additional insulation and use energy efficient appliances. I cannot image how senior citizens and those on social security disability survive. I ask that during this pandemic with so many out of work and no cost of living rates for many still employed, reduced hours and furloughs, please vote no.
