Dear UTC Commissioners,

Keeping households connected to power is important to me because we are all healthier and safer when ALL are taken care of. Ensuring continued access to utilities, regardless of ability to pay is necessary for ensuring public health and our shared morality.

In line with that, I urge you to:

- Keep Washington families connected to power for the duration of the pandemic and through economic recovery.
- Erase the utility debt of low-income households.
- Require utilities to pay their fair share. Prohibit utilities from charging customers for lost customer load and fees they are legally prohibited from collecting.

Sincerely,
Megan Slade
