**July 3, 2024**

**AVISTA CORP.  
RESPONSE TO REQUEST FOR INFORMATION**

JURISDICTION:	WASHINGTON	DATE PREPARED:	05/03/2024
CASE NO.:	UE-240006 & UG-240007	WITNESS:	Clint Kalich
REQUESTER:	UTC Staff	RESPONDER:	Lori Hermanson
TYPE:	Data Request	DEPT:	Power Supply
REQUEST NO.:	Staff – 183 Supplemental	TELEPHONE:	(509) 495-4658
		EMAIL:	lori.hermanson@avistacorp.com

**SUBJECT:** Power Supply

**REQUEST:**

Re: Kalich workpaper NG Transportation Thermal Contracts. Please provide support for the pasted-in values in rows 4-17.

**SUPPLEMENTAL 05/03/2024:**

Please see attachment Staff-DR-183 Supplemental Attachment A – for the Electric Rates Calculation Example for more detailed information. It should be noted that the original query was pulled in August 2023 when the case was being prepared and the rates have since changed, which are both reflected in the attachment. Finally, the Mainline Contract to Malin is a negotiated contract that is capped at 0.2406 cents also reflected in the attachment.

**RESPONSE:**

The values pasted into rows 4-17 are the sum of the natural gas transportation contracts in effect at the time the rate case was prepared for the pro forma period. These would be based on the rates in effect at the time the query was done. For example, rates on GTN are likely to change as they settle. The rates on TCLLAB and TCPLBC change annually at the least.
