[EXTERNAL]

Dear Attorney General's Office,

I just received my latest PSE monthly bill. As a consumer and homeowner, I'd also like to receive a 3.49 percent salary increase. But I realize that is unlikely to happen. Given the last year dealing with COVID and associated unanticipated fallout, economically we've all suffered. An increase may be warranted, I'm certain PSE will make a compelling case, but the timing is terrible. Let us all recover for a period of time and let economic life return to a new normal before approving a rate increase for PSE.

Thank you, rod
