NOTICE OF ADDITIONAL ISSUES

RE: *Petition of Intelligent Community Services, Inc. for Designation as Eligible Telecommunications Carrier Under 47 U.S.C. § 214(e)(2),*
Docket UT-053041

TO ALL PARTIES:

On May 6, 2008, Intelligent Community Services, Inc. (ICS), the Washington Independent Telecommunications Association, Inland Telephone Company and the Staff of the Washington Utilities and Transportation Commission (Commission) filed a joint issues list.

After reviewing the parties' joint issues list, and consistent with the procedural schedule in this matter, the presiding officer adds the following issue to the list: "What effect, if any, does the Federal Communication Commission's recent decision to cap universal service funding to CETCs have on ICS' petition?"

In addition, the presiding officer requests the parties modify Issue 4.4 to read: "Are both Suncadia and ICS separately willing to provide access to Suncadia's communications infrastructure to carriers other than ICS on the same or comparable terms and conditions as those under which ICS has access to Suncadia's communications infrastructure? If not, are there other conditions on which Suncadia ~~and~~ or ICS will provide such access?"

Sincerely,

ANN E. RENDAHL
Administrative Law Judge
