Subject: IRP

Dear Chairman Danner, Washington Utilities and Transportation Commission:

I am writing you concerning the latest IRP draft. It has come to my attention that it currently includes a proposal to continue operating the coal plant Colstrip, Montana.

I am vehemently opposed to having my electrical power derived from coal. We need to be forward-thinking for our children's sake. Please do what you can to remove coal from our energy future.

Respectfully,

Jacob L Jensen
