RE: Docket UE-230904—Revised Appendix 4 for PacifiCorp’s 2025 Annual Conservation Plan

PacifiCorp d/b/a Pacific Power & Light Company (PacifiCorp) submits a revised Appendix 2 for its 2025 Annual Conservation Plan to correct two line items in the Home Energy Savings Incentive Tables for single family homes, which inadvertently included the incentive rates for manufactured homes in the initial filing. The enclosed revised Appendix 4 corrects the rates as described below:

1. Heat Pump Conversion for replacement of existing electric resistance heating (Single Family Home):
 - Customer Incentive has been restored from \$2,500 to \$2,750
 - Market Partner Incentive has been restored from \$500 to \$750
2. Heat Pump Conversion for replacement of non-electric or non-natural gas heating system (Single Family Home):
 - Customer Incentive has been restored from \$2,750 to \$3,000
 - Market Partner Incentive has been restored from \$500 to \$750

The incentive tables posted to PacifiCorp’s Home Energy Savings website have been corrected as well.

If you have any inquiries, please contact Ariel Son at (503) 813-5410.

Sincerely,

/s/ Matthew McVee
