Gas at the pump up 40% and rising, In the last two months. My health insurance has increased. My property tax has increased. Food costs more. Registering my vehicle has gone up. Despite the people's vote to reduce. My water bill is increasing. There's an under handed effort to annex the area I live at, into the city. The state gave that unilateral authority to our commissioners, without the vote of the people. Now my power bill is heading for an increase. All the while my income has decreased. Is there no end to the insanity? We sell coal plants used for producing power. Then we buy back power from these plant at an increase rate. Whos taking care of the people? Your killing us slowly.

Do the people have any real rights. That could cause the organized crime (big business)the governments has become, to pump the breaks. No one is accountable. We just get steamrolled.

Very concerned citizen.. mike Docker .
